Rockin' with the Oldies

by Jill Dyer

A little wet, a bit chaotic, but a good time nonetheless.

The thunder storm could not have blown in at a worse time had someone planned it! We could probably win the \$10,000 on America's Funniest Home Videos had anyone taped the mass exodus from Richardson Stadium just before the ceremony.

Debbie Liverman (BSC) and Lillian Montgomery (Connor) were named as second runner ups. Beth Lindsey (Rusk) was first runner up, and Allison Sabel (Phi Delta Theta) was crowned the new queen. The Homecoming Court handled the deluge beautifully.

Luckily, though, the rain did not set the tone of the rest of the weekend. For the class of 1996, it was like

going back in time. "The basements were our sophomore year all over again," said senior Kate Evans. "It seemed as if the entire class of 1994 returned. It was great!" The alumni were back by the dozen.

Sophomore David Kearfott agrees. "Even though it rained like crazy, seeing all the alums drunk off their butt made my homecoming."

The few juniors who were here had a different experience. Hall Counselors Wendy Nichols and Rebekah Peeples remarked, "It was great to know the alumni who came back, and get excited about seeing them again. But it was awesome to see all our freshmen out too!"

Despite the rain, Homecoming 1995 rocked our world.

THE LATE NIGHT CROWD:

The Face of the Court Changed Forever

This year saw a change that many feared would come, but hoped and prayed never would.

As word spread rapidly about the intentions of the PCC, mass panic spread like wildfire. Before anyone could do anything about it, however, they appeared. At the first party of the year wristbands debuted, forever creating an unfair caste system between the haves (21-year-old basement dwellers) and the have-nots (the poor souls forced to spend precious time begging for beer).

Some students refused to blink in the face of this tyranny. Wristband terrorists soon appeared,

going about getting wristbands, taking them off, and then getting new ones in efforts to undermine the PCC. The guerrilla leader is on record saying,

"We're striking at the very hearts of Davidson College. Only by hitting them in the wallet...can we hope to strike a blow."

By the end of the year, it appeared that the rebellion had won at least a partial victory. After huge losses, PCC instituted a new policy where only 21 year olds wear bands. Still, long as any of our fellow students remain shackled to plastic and propriety, the struggle lives on.

Partying Around the World!

Saturday, September 30, was the College Union's 10th Annual International Festival. It was a sensory extravaganza of people, foods, costumes, performances and objects from all around the world. Davidson's 60 international students sponsored booths picturing their homelands with art, photographs, and costumes, and offering samples of traditional foods. The festival was the largest ever, with between 250 and 300 people attending.

International hosts offered visitors an opportunity to have their hands decorated with "mehndi," a henna dye used in India, to have their names written in Arabic, and to learn native games. Participants wore native dress to greet the spectators. At the Indian booth, Chris Martin served hot "parathas," a type of bread. A special performance was given by Francis Kofi, a world-rekknowned Ghanaian drummer and dancer. Besides the Ghanaian show, there was also an hour of student performances that included Japanese pop songs, Bharatnaty

dancing, and Korean love songs. Kenny Lee, a Davidson student from Inchon, Korea, sang a Korean ballad.

Nick Kallan, a Davidson senior, helped out with the Greek booth and toured all the rest. "My grandparents were Greek and I am a second-generation American," he said. "I went to Greek school when I was younger and was so embarrassed to have to go that I didn't really listen. Now I am kicking myself for not learning more. I am proud of my heritage and I am glad to be here telling others about it ... besides, it's hip to be ethnic."

"And besides...
It's hip to be
ethnic!"

-senior
Nick Kallan

In the Europe/Middle East room, sat Chris Machon, surrounded by Polish pottery, food, and art. His Poland booth included the nations traditional drink: vodka. "People think that Russian vodka is strong, but Polish vodka is the best because it is made from the heart of the Polish people," joked Machon.

The festival provided a time to share traditions with others and an opportunity for Americans to learn more about other cultures.

Room for the 'Rents

Parent's Weekend 1995 offered a dizzying pace of activities for students and parents alike. As the influx of parents began on Friday, students wrapped up their seasonal cleaning frenzy: dirty laundry magically relocated to the recesses of the closet and incriminating evidence of past festivities disappeared from refrigerators. With the grunt work out of the way, students could anticipate one of the first and foremost advantages of Parent's Weekend, good food. Temporarily orphaned friends and roommates were often among the large groups of Davidson folk who invaded the fine dining establishments in our area. Senior "orphans" Anne Sutton and Renee Young jokingly summed up their feelings about the weekend, "Parent's Weekend isn't about parents, it's about free food."

In the absence of convocation, many students were momentarily baffled with what to do with their folks for a whole morning. However, Parent's Weekend proved to be one of only four

sunny Saturdays during the entire semester. Many students saw the fine weather as an excellent opportunity for a leisurely stroll around campus culminating in a visit to the Bookstore where Davidson rings were for sale. The afternoon found parents and students cheering the Wildcats against Hampden-Sydney and attending various lectures and performances around campus. Following another meal in the big city a few parents who were not shuffled off to the hotel were spotted amongst the revelers at Court parties. Perhaps it was a couple of rebellious parents who ignited the illegal bonfire in the middle of the Court Saturday night?.

As Sunday rolled around, many families appeared at local worship services or gathered for a last (free) meal with their sons and daughters before heading home. After a flurry of good-byes and last minute hugs, the cars slowly left campus and students returned to the academic grind, scrambling back to their dorms to begin the work which had been put off all weekend.

Shakin' Things Up at Dean Rusk

by Eric Sapp

With Ambassador Brown at the helm, the Dean Rusk Program expands to new horizons...

What do an Israeli diplomat, an American Congressman, a Chinese political activist, and a delegate from the State Department have in common? They have all spoken at Davidson, courtesy of the Dean Rusk Program. To many, this is what the Dean Rusk Program is -- a group that is always putting up fliers advertising various famous international speakers at 7 pm in the 900 Room or Carolina Inn. However, as Ambassador Ken Brown (the new director) put it, "Dean Rusk is much more than just great speakers." Nothing could be more true. Bringing international speakers to Davidson is only one of the many things the Dean Rusk Program does.

Secondly, the Dean Rusk Program gives out tens of thousands

of dollars to Davidson students each year in effort to encourage their international experience. This major funding (which everyone is eligible for) has pushed Davidson to have the ninth highest percentage of students who study abroad.

The Dean Rusk Program also funds a large number of student organizations and outreach programs, like the SAC. The Student Advisory Committee meets regularly to organize and suggest Dean Rusk events. Members of the SAC wine and dine (or at least dine) speakers after picking them up from the airport and attend special pre-talk lunches and dinners with speakers.

The Dean Rusk Program also puts out several publications. Along with the Toilet Paper, weekly international news columns are also

featured in The Davidsonian and The Worldly News. A new biannual publication will present comical and interesting stories of the culture-clash experienced by Davidson students and professors studying abroad.

From sending students to the International Women's Conference in China to taking students to hear the Dalai Lama, the program probably affects a greater number and a wider variety of students than any other college organization. Ambassador Brown summed up its importance: "In an academic institution of Davidson's caliber, it is important for us to increase international awareness. No matter what career a Davidson student chooses, he/she will find that they are affected by what goes on outside our boards. We need to understand that."

Davidson Pilgrimage. With the help of the Dean Rusk program, students trek to Wingate College to hear the Dalai Lama speak.

Twist and Shout! All who attended are spellbound by the unique costumes and choreography of the African Dance Troupe.

Our House is a very, very, very fine house...

by Smita Donthamsetty

Habitat for Humanity is a common name for most Americans. It is a nonprofit ecumenical Christian housing organization that works in partnership with people in need to eliminate substandard housing. Habitat houses are built with donations using both volunteer and skilled labor. While building a house, the donors, volunteers, and home owners build relationships as well.

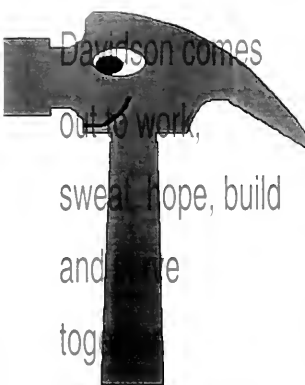

The idea for a Davidson College sponsored house was the result of a spark that was started by various groups of students and staff all over campus. From a Habitat trip to Jacksonville last spring break to a leadership conference in Charleston

in May 1995 to a meeting of the Patterson Court service coordinators in September, the interest expressed in this project was tremendous. Slowly but surely hammerheads on yellow pieces of paper began to appear in windows and on doors all over campus. Wildecats Habitat was underway.

The project began when Catherine Turner and Smita Donthamsetty decided to put the project in motion by forming the Habitat House Committee. The Committee was comprised of various faculty, students, and staff who have coordinated the entire project. Some of the events that have taken place for the project include Homeruns for Habitat in October, the FLAG

fashion show in November, the Habitat Rally and Variety Show in December. The 1996 spring semester will involve the complete building of the house.

The Wildecats Habitat project embraces the spirit of service to which Davidson aspires in preparing "young men and women for productive and meaningful lives of leadership and service in a complex world." The main hope of the Habitat House Committee for this project is that it will bring together the Davidson community. With this project, we have not only built a house, but we have also made windows through which we can see each other clearly.

Frolicking Students...

Letting Loose at Lunar Luau

Davidson's annual Lunar Luau made a spectacular appearance once again in Richardson Field this fall. This social event, sponsored by the Union Board, is one of the most popular and highly attended school-wide activities of the year. True college spirit was in the air, as even the freshmen seemed to enjoy one of their few remaining Court-less evenings.

The event kicked off with the Wildcat cheerleaders leading a spirited pep rally -- a perfect adrenaline pumper to begin the evening. Music, frisbee, and even Twister created the festive atmosphere that is ever-present at the Lunar Luau. Sophomore Sandra Symes said of the event, "It was a really fun campus-wide event -- everyone that contributed did a great job. It was also a great opportunity ... to participate together in a school-wide activity."

One of the most popular attractions, the Velero Olympics, was a huge success among the crowd. The Velero Olympics consisted of an inflatable obstacle course covered with velero. The participants wearing attractive velero suits, skillfully (but most of the time not) maneuvered their way through the course, while at the same time ripping themselves off the walls and tunnels in order to reach the end. Those Olympians talented enough to make it to the end, definitely seemed to enjoy their experiences. A somewhat disoriented sophomore, Dan Creekman, commented "There's velero everywhere, da(rn) it! You get stuck!"

Thanks to the Union Board and Patterson Court for a great night of food and entertainment!

D EDICATION, DONATION, DEVOTION

Project Life is an organization founded by students with the dual goals of community education and participation in the movement to expand the number of potential blood marrow donors. Headed by senior Sarah Lindsey, this year's drive succeeded in raising enough money to fund the typing of the 300 students and faculty who donated blood.

Lindsey cites the "at least five or six donors that have been typed at Davidson in recent years" as incentive for the college community to get involved in Project Life.

This fall, Davidson added another bone marrow donor to this list. Junior Brian Boyd drove with his mother to North Carolina Baptist Hospital in Winston-Salem on Friday, September 29 to undergo the operation to remove some of his healthy bone marrow.

Boyd found out from the Red Cross that he was a first level match during final exams at the end of his sophomore year. Several weeks later, after another

series of tests, he found out that his blood matched that of a twenty-nine year old female patient in need of a transplant. He received complete information about the donation process at that time.

When Brian returned to Davidson in the fall, he underwent the standard physical, EKG, and other tests necessary to confirm his health before the surgery. Then he became one of the growing number of people who have had the opportunity to donate marrow after participating in Davidson's Project Life Bone Marrow Drive.

The operation took twice as long as the usual 45 to 90 minutes due to "my exceptionally dilute bone marrow," but Boyd recovered quickly. He returned to his usual pace shortly after his operation, saying, "I needed to go back to class. I had a paper due on Monday."

Brian knows that his recipient is divorced with three children, and he can communicate with her through anonymous letters.

Playing Davidson

The Davidson College Union Board has sponsored yet another year of entertaining bands. The concert committee, led by the efforts of junior Kate Greene, worked diligently to recruit a multitude of bands and organized all activities to ensure that each show was a success. The school year kicked off with a concert featuring God Street Wine on Richardson Field. Four days later, The Emptys, best known for their hit "Smokin' Oysters" found on the *Aware II* album, played in the 900 Room. Vertical Horizon, along with Eddie from Ohio, returned once again to Davidson to play before a capacity crowd in the 900 Room. However, the number of students able to attend the concert was limited to 300 people

because of fire safety regulations, and many students were turned away at the door. The dedicated fans who managed to beat the masses enjoyed an outstanding performance.

The highlight of the fall semester came during the first weekend in November when Rusted Root rolled into town. Originally, the Union was trying to get Rusted Root for earlier in the semester, but Rusted Root was concerned

"I was pleasantly surprised with the quantity and quality."

- Jason Cody

that a small school such as Davidson might not draw a large enough crowd. However, an unexpected opening in their schedule resulted in a spectacular performance before a sellout crowd in Love Auditorium.

Freshman Jason Cody said, "I was pleasantly surprised with the quality and quantity of the concerts played at Davidson."

by Jason Shultz

"Send Me on My Way."
Rusted Root attracted fans from all over the Carolinas

Creeping Toward Christmas

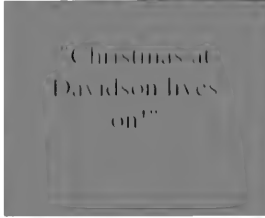

Cheers! Anne Sutton and Eric Otto celebrate Christmas college style

Soon after returning from Thanksgiving Break, the Davidson community submerged itself in the Christmas spirit.

The shops and trees along Main Street were adorned with white lights and red ribbons while residence halls were ornamented with colorful lights both inside and out. Competitions to determine the best decorated hall were held throughout the campus. Even those students not directly participating often strung lights or displayed the tree sent by mom to cheer up the weeks surrounding final exams. In the final weeks of the Fall semester students

could be found viewing traditional Christmas favorites in the 900 Room, as well as attending Avepers services. The celebration culminated with the annual Campus Christmas party in which students and faculty gathered on the front lawn of Chambers to sing carols, drink hot chocolate, and witness Santa seal down Chambers and inaugurate the lighting of the trees. Aside from Union sponsored events, Christmas parties abounded around campus as a variety of social organizations hosted gatherings. Christmas at Davidson lives on!

Showing Off Some Shakespeare. Adrienne Nixon and Jared Govan perform to rave reviews in Davidson's fall play, "Twelfth Night."

On Stage

Standing in the Limelight

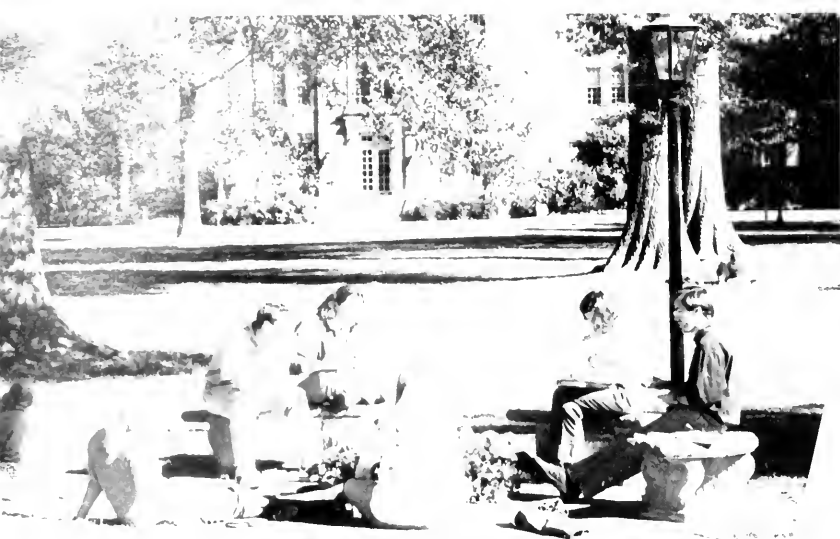

Fall semester brought two stellar productions to the Davidson campus in 1995. Despite the polarity in plot and presentation, of the "The Great Honor Code Caper" and "Twelfth Night," both were rousing successes.

Written by a former Davidson student, Brad Griffin, "The Great Honor Code Caper," commemorated the end of a two year fund raising event. As a spoof of Davidsonian life, the play took familiar Davidson faces to center stage. Even Baker Sports Complex was transformed into a theatre.

On the other end of the spectrum, "Twelfth Night" brought Shakespearean drama to campus. Keeping with the Renaissance motif, the cast and crew gave a classical rendition of "Twelfth Night."

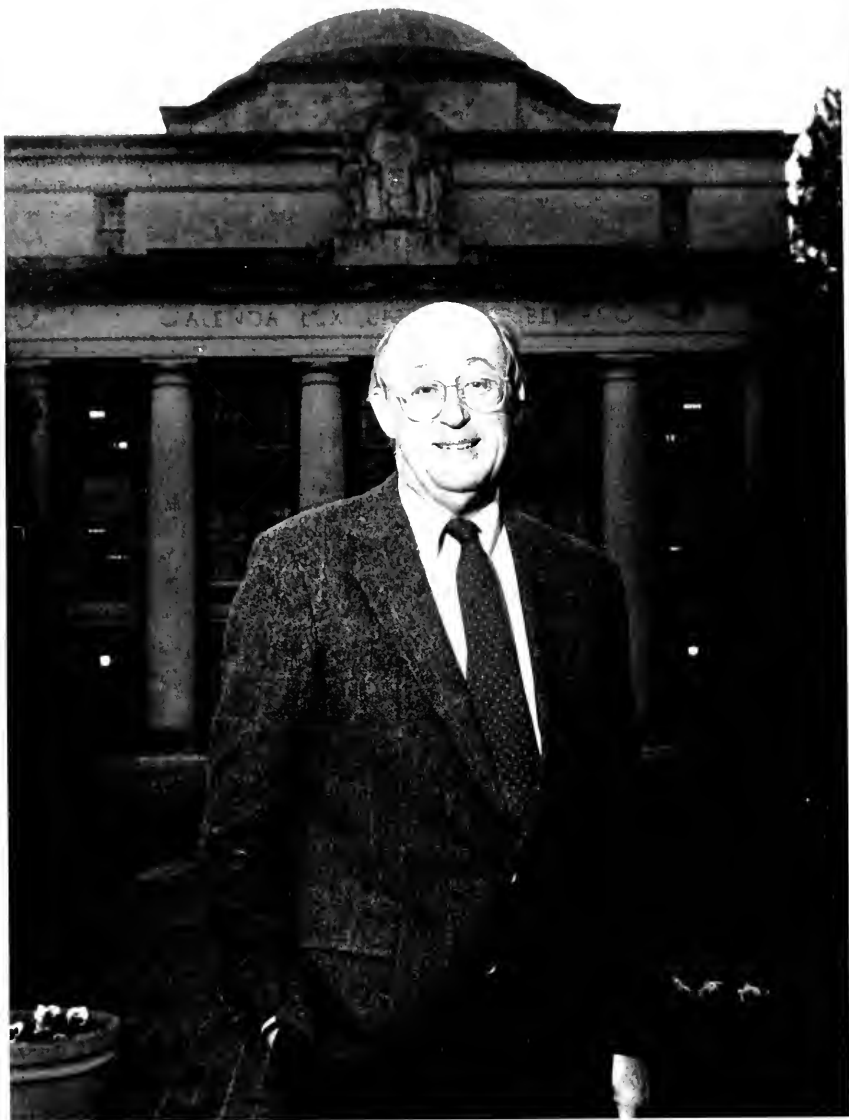

by Anne Sutton

Standing Guard. Looking very presidential, Dr. Kay Kendall stands before Chambers, where he will still have an office, though he'll have to take the stairs.

Fancy Footwork. Also known for his non-scholastic smooth moves, Dr. Kay Kendall twirls his partner through a square dance.

A Tradition to Continue

Dr. John Wells Kuykendall assumed the Presidency of Davidson College on October 5, 1984. In May of 1997, he will leave as Davidson's fifteenth president after twelve years of service. It is both a disservice to him and Davidson College to honor him in such few words.

Under Dr. Kuykendall's administration, the face of Davidson has been transformed to reveal its accomplishment and proclaim its potential. The completion of Baker Sports Complex, the Visual Arts Center, the Senior Apartments, a \$200 million campaign for Davidson, and a national academic standing, are only a few of the accomplishments Dr. Kuykendall will leave behind. What many may not see or take note of, however, is the integrity and hard work John Kuykendall has brought to this college and his job every day. This integrity can be found in a wooden pew inside Davidson College Presbyterian Church.

on the backboard of a Chamberlaine, or on the bleachers of Richard's stadium, or in the green paths of Jerusalem, or in any way across our campus of autumn and spring flowers. Dr. Kuykendall has changed what Davidson is today, and it is hard to imagine he is the same when he is gone. He has tied himself to a small little college in the North Carolina Piedmont and made it a special place; this is not just a place to be educated and leave after four years with a diploma, but a place where students, professors, and most importantly, people find themselves together in a community of laughter, crying, and work. This is the Davidson community to which Dr. Kuykendall devoted himself, a community of honesty, integrity, scholarship, and faith. In each product of Davidson, Dr. Kuykendall's efforts can be understood.

—By Chris Currie

Come Rain Or Come Shine. Clearing away debris after hurricane Hugo, Kuykendall shows the team spirit that has made Davidson cherish him

Basketball Talent Thrills Community

A sea of red and black predominated Mar. 3 in the Greensboro Coliseum, as heavily favored Davidson met Western Carolina for the Southern Conference championship and a ticket to the NCAA basketball tournament.

Many students put their Spring Break plans on hold and traveled en masse to Greensboro. "Davidson was well-represented by all classes, all races, all majors, all houses," said 1995 student body president Bill Gullan. "We were there, loud, and proud."

But even with the Wildcat following and the team's efforts, a 69-60 loss snapped a 19-game winning streak and sent disappointed Davidson to their second National Invitational Tournament in three years, where the South Carolina Gamecocks ended a magical 25-5 campaign for Davidson.

The potent combination of veteran experience and youthful exuberance steamrolled through the regular season, going 23-3 overall and 14-0 in the Southern, becoming the first squad to post an undefeated league mark in 21 years.

They dismantled opponents by an average of 18

points, conference foes by 20, and won 19 games in a row from Dec. to Mar., the second longest winning stint in school history.

The Wildcat's domination garnered regional and national media attention, the *Charlotte Observer* called the Wildcats "a team to get excited about and to dream dreams about," while Dick Vitale, ESPN's colorful basketball analyst, energetically promoted Davidson on his telecasts.

The campaign ended with defeat, but hoops hysteria which swept campus in '95-'96 will not soon be forgotten. Following their Senior Day comeback victory over Marshall, the seniors saluted students and fans for their constant backing throughout the season.

Davidsonian columnist David Mortlock wrote, "I have fallen in love with not just our basketball team, but with the idea that they were going to make Davidson recognizable to the world. The magic of the season lay not with their impressive wins but with the hope and excitement they gave to us all."

by Michael Kruse

Over the Top. Mark McGuire overpowers a South Carolina player before a packed house in the first game of the National Independent Tournament.

SENIORS

Late nights in odd places, intense planning sessions, and moments of sheer joy

To paraphrase General Douglas MacArthur, "Seniors in the spring don't graduate, they just fade away." As I write, we all fully expect to graduate this May, but my busy life will be winding down about the last week in January, when my successor is elected. Then, I will be a young has-been, over-the-hill, as well as so far down it. No one will consult with me, ask that I attend a meeting, or introduce themselves to me on the Court. Rather I'll watch the new lions rage, and new issues come in with a blast and out with a whimper. It's all a cycle, we know that by now.

But if one were to capture this shining moment, and put it in a bottle, we seniors would be those bubbles floating at the top, the head on the smooth imported beer. We are the straws that stir this drink right now. The decision-makers, the master event planners, political leaders, and workhorses are all seniors. Any good or ill that can be attributed to a student organization this year has Class of '96 written all over it. Late nights in odd places, intense planning sessions, and moments of sheer joy typify this period in our lives.

Sitting up in the SGA office when the only light is the burning ember dancing on the end of my cigarette, I wonder, on whose shoulders am I now standing? What giants they must have been, or all of us for that matter. To ourselves, we are the center of the universe, but to the universe, we are the size of a cigarette butt in the Atlantic Ocean. It's a well-worn concept, the smallness of each of us (though I've gotten bigger since high school), but the more daunting task is to come to grips with those that have come before. Leadership is ours, but there have been and will be others.

We've all changed since freshman year. Some have excelled, and some matured. Many of our best days lie ahead, others, unfortunately, behind. These are the times when we have the power: then the cycle begins again—this time, professionally. History may judge us well or poorly, or, modifying Rick Blaine, give us no thought at all, but we were here, and as seniors, it was our calling to lead, and we did it, for better or worse. It's been a time of epiphany and apostasy, an ephemeral period of titan-ship, but a formative chapter in our lives. We will truly have these moments forever, but never again.

By Bill Gullan

Freshmen Halls All Over Again?

"I've been through the best and the worst of times with them."

By Jill Dyer

Do those Myers-Briggs tests they give you before you enter college really work? Does RLO really think about who lives down the hall from you freshman year? Freshmen hallmates are who you often end up spending most of your time with, at least for the first month of school or so. These people share an important year of your life

with you, and if you are a typical senior then many of your best friends tend to come from your freshman hall.

Senior apartment groups are the most telling. Khaki McIntire lives with her freshman roommate and the roommate pair from across the hall. "Davidson did so well in pairing us up freshman year that we've all stayed close throughout our

four years here." Senior Swati Patel, who lives with four other freshmen hallmates, agrees. "It helps us bring back some of the freshman year atmosphere. Then it was like a slumber party every night and it still is."

Not only true for females, Ashley Tabb also lives with freshmen hallmates. "I lived on a really close hall freshman

year and there was a strong bond between us. It gave me good friends through my college career."

Anne McKinne likes living with her freshmen hallmates: "It's neat living with people again from your freshman hall. There is such an intense history; I feel like I've been through the best and worst of times with them."

Mirror Image. Freshmen roommates Ben Buinسد and Jonathan Brooks model their matching tattoos.

Only Just Begun...

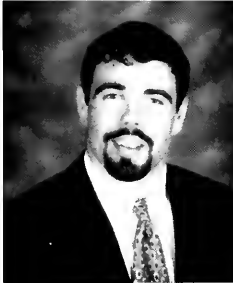

Russ Larver

Yes, it was finally senior year. Everyone returned from their time spent abroad, the youngest of our friends turned 21 and joined us in 900 Room on Tuesday nights. We could finally construct the schedule we always dreamed of...3 classes, none before 12 and never on Fridays. We celebrated on Patterson Court for 36 more weeks before saying goodbye to the school we grew to love (and, occasionally, despise).

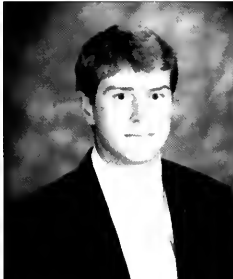

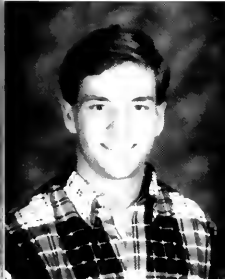

Then at graduation, which came so quickly, we stood, with our caps and gowns, ready to take on the world, in any shape or form, never to allow the world to take us.

Davidson Style: New or J. Crew?

By Matt Force

Let's be honest. We're known for our academics, not for our fashion consciousness. Very few people over the years have had any inkling of style. For the most part, the campus has tended to be interested in conformity. For example, most guys follow frat-styles. Flannel shirt, khakis, and, of course, the baseball cap with curved bill so you have to look up to talk to someone. And hiking boots are a must. You may have never gone anywhere near a mountain, hill, or hiking trail, but you are still entitled to wear top-of-the-line boots. The weather is treacherous here in North Carolina, so come prepared. Any visitor to our campus would immediately think that the entire student body was sponsored by Patagonia. Those fleece things are every-

where and in every color. You will find students wearing other jackets that are capable of withstanding sub-zero temperatures because they are made out of the same material as the Space Shuttle.

Women tend to dress a little nicer, but it is clear that school is more important to them. Though most profess to be casual, some actually demonstrate a sense of style. Some women look

like they might have seen a Vogue or two, being crazy enough to sport short skirts, tight-fitting shirts, and even shoes with heels. For the most part, women tend to dress androgynously in casual, loose-fitting articles of clothing.

The only real element of student life that has exemplified some sense of personality has been hair. Women seem to experiment with their hair, unsatisfied with any one look or color for too long

Men have experimented with many shapes - most popular has been the shaggy, short cut, that frat hair cut we all know and love. But facial hair has been the most radical and entertaining element of style. Goatees come and go, as well as sideburns. Some are woolly as Shetland sheep while others are a dozen transparent

hairs.

The typical student has little time to worry about the conventions of fashion, for he/she is too worried about making the grade! Though some students have come up with revolutionary styles reminiscent of New York, London, and Paris, they have yet to impress the tastes of the student body. We are simply not ready for the change.

Ahhhh, Senior Year...

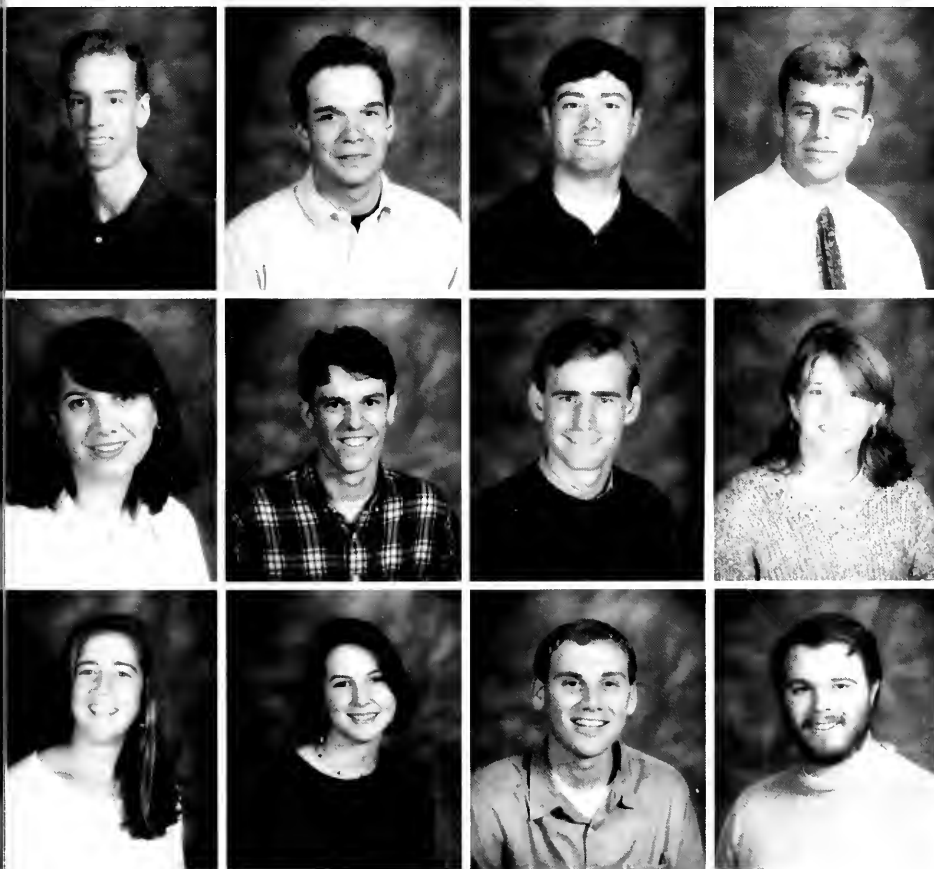

By Mike Guggenheimer

the last time
 that I listened
 to a message
 from Brenda
 Farvey was when-
 ever she sent the
 first one...

As a student counting down the days until I am thrust into the real world and fed to the dogs, I thought I would outline some of the anomalies of being a senior. **Interviewing:** I am definitely not an expert on the subject, seeing as how I've never been to one, nor plan to, if I can help it. **The Question:** The next person that asks me what I'm doing next year... **Apartments:** What am I going to do next year when I don't have those RLO dudes coming by to see that my place is clean twice a year (that is, of course, if I get the bus boy job that I'm interviewing

for, and if it pays enough to cover the rent). It really does amaze me how a clean (a relative term, I assure you) apartment can be transformed into a wasteland of beer cans, unread sections of the newspaper, and dirty dishes. **Marriage:** I'm scared to even touch this one. Too many people my age are getting married! Just because college ends doesn't mean that the fun has to. **Hooking Up:** What am I going to do next year when I can't go to the court to find someone to convince that I'm suave and stunningly handsome and really only want to bring her back to my apartment to show her my poster of Kirk Cameron?

I'm sure I left out a bunch of noteworthy senior issues, but I'm trying to work on coming back for another senior year to study them in more depth (at least that's what I'm telling my parents). But if I do graduate, I'll be thinking about my married classmates with high-paying and high-stress jobs as I relax each night in my bachelor pad, drinking champagne from the bottle, rubbing my belly and thinking about my easygoing job at Burger World.

The Art of Doing Nothing

by Jeff Kent

Ambitious, motivated people ready to conquer the world after they graduate? Relax.

People at this school need to relax. Obviously, the academic climate here creates enough stress for two or three lifetimes. However, I feel the high tension level stretches far beyond the famed walls of Chambers. The Honor Code, the Code of Responsibility, the renowned workload, the pressure to succeed after college, and the gung-ho "work hard, play hard" mentality.

Here, you are supposed to be perfect: the ideal student never lies, never damages things, always studies when it is time for studying and blows off steam when it is time to let loose. Everything we do here

is strictly regimented into categories. People feel that if they are not doing one thing they must engage in another. What's wrong with doing nothing once in a while?

Let's be realistic. Nobody - not even a student here - is perfect. The rigorous academic agenda has proven its worth in creating ambitious, motivated people who are ready to conquer the world after they graduate. But at the same time, students get the impression that every ounce of time is precious and must not be wasted on idle activity.

Time is precious, very precious, but setting aside time to lounge on a lawn during a pleasant day or to relax on a couch with no particular goal are just as important for mental

health as studying for a test, practicing for a sport, or working on a project.

As one who has realized that I will never get a job based on my grades, chilling out and working on my personality is my only option. But for those of you who have mastered the art of doing nothing, suggest you try it just a little. It clears your mind and makes you a more enjoyable person to be around. Just try the nothing thing - if not for yourself, then for the rest of us.

Top Ten

10. Free Beer.
9. "Ladies Lock In" consists of three co-eds trapped in a rusted old Nova.
8. No pesky cleanup duty unless your roommate has a little accident.
7. No need to sell plasma in order to fund house dues.
6. Homecoming at Shoney's.
5. Plenty of Independent "bags."
4. Gene the "smokin'" Commons man.
3. No need to streak through Rich, unless of course you really want to.
2. No midnight madness.
1. Two words: SAAD GUL.

Guidelines for Independent Life

By Tony Tuntasit

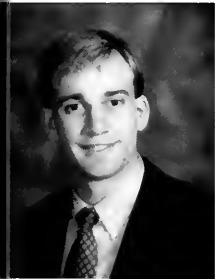

At some point in the freshman year, the student must choose between two courses of action: to rush or not to rush.

More and more students have consciously made the decision to choose the independent lifestyle. A survey of some independents on campus show that the reasons most associated with being an independent ranged from "spontaneity," a "certain freedom from conformity," and, of course, "free beer," (although this year's PCC

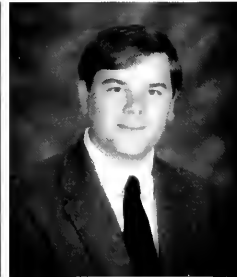

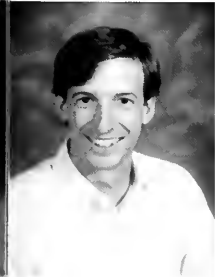

sticker did cost ten dollars).

The tight niche and close friendships that frequently develop in fraternity and eating house life also exist on the independent scene as freshmen hallmates continue to provide strong bonds.

There is an increase in the number of events planned for independents, ranging from Union sponsored functions, activities with ISA, and, of course, SGA affairs. The benefits of choice, diversity, and autonomy seem to be the allure for an increasing wave of independents.

Patterson Court:

From pledge to apathetic senior...

by Jack Slosson

After four years of college, most seniors have eventually come to realize that there is more to life than just studying. As much time as seniors have spent in Chambers and the library, many have also ventured beyond the commons to that wonderful world of Patterson Court. Kegs of "Beast light," first night down, ladies lock-ins, Spring Frolics, pledging, and self-selection night all offered an escape from the every day trials and tribulations of college life. A large part of the men on campus have all experienced being rushed, pledging, then rushing freshmen, and eventually becoming an apathetic senior.

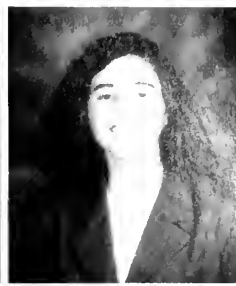

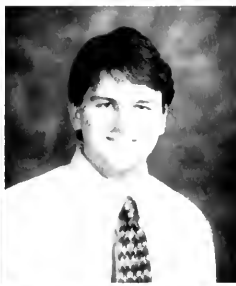

The eating house system has afforded the female students a chance to participate in the social scene without the pressures of rush or pledging. Whether one is a member of a fraternity, an eating house, the BSC, or an independent who likes to drop in on the occasional party, Patterson Court offered a much-needed social outlet to students.

However, Patterson Court was not merely for blowing off steam, but the organizations contributed a great deal to the community with an excellent tradition of service. The friendships created as members ate their meals together, worked together for a cause, and partied together made Patterson Court a large part of every senior's experience. Senior Stan Boyd comments: "I don't know who Patterson was, but I sure like his court."

Where Did the Time Go?

Where did the time go? I don't want to be a senior and think about "life choices" yet! I want to sit around and discuss Amanda's *Melrose* motives and take naps and go to the Union. I can't even be a real person and wear comfortable shoes every day!

As my senior year draws to a close, I still relish the carousing and debauchery of bleary college nights - but not with the same reckless abandon that I enjoyed as a freshman. Now it's off to the computer center to write resumes and to beat down a three-year thick wall of denial.

I'm jealous of all the first-year students who come parading in here without one worry. Soon they will be beaten to a pulp academically, but there are positive aspects to life. I swear! I am leaving all of you with a few things that are amazing about college life:

1) You never have to pay for beer. On a drink-for-drink basis, friends, the Court is free! How appalling to spend \$3 on a measly beer! You will vow never to curse the Court again (a huge feat for any student).

2) Harris Teeter is open 24 hours a day. For those of you not from the area, the "Teet" not only has a fabulous selection of fine goods ready

for purchase any time of day or night, but you can also get one free cookie (honor bound) at the door.

3) You don't need a fake I.D. Party on! Unlike our friends who chose the bar scene at state universities, you can have fun without false identification (that is, if you are in the shrinking minority at Davidson who actually leaves the dorm after 10...)

4) The Pub's jukebox. This unit of tunes has a plethora of medleys for both locals' and students' enjoyment ("All My Life" by Aaron Neville and Linda Ronstadt is a personal favorite). However, sometimes it lies silent because

pub-goers are spending their parents' money on pool, etc. If you're low on funds, don't fret, because "Freebird" (live) will last an entire pool game.

5) The art of Commons watching. The cultivation of this skill should command the utmost attention from every student. The key, as any Vail veteran will tell you, is good positioning. Get there early and stay late for the best show.

So, aren't you glad you came to Davidson? What a wealth of stimulating cultural activities we enjoy! Anyway, take it from an old, graduating poop: four years go by incredibly fast.

Learning Our Lines

ALENDA LUX UBI ORTA LIBERTAS

By Mandy Curtis, Robert Ramsay, William Robert, and Russ Farver

As we conclude our fourth year, let us ponder some essential truths. These truths, simple yet treasured, belonged to the first class of 1841 and have passed down from generation to generation of Davidsonians.

Words like learning, leadership, and liberty make up these essential truths and are only a few of the many that we hear throughout our college experience. We hear them often, but sometimes we don't really listen. Lots of times too much is going on to think about what these words and these ideals mean. Freshmen become pretty familiar, almost comfortable, with these words in the first few days of orientation. But once they start sorting through different emotions and experiences in an effort to figure the place and the people out, the words become fuzzy. Things like Court parties, English Comp, soccer games, and date functions begin to overshadow the ideas.

By the time sophomore year rolls around, people can't remember all of the words but they know they're supposed to mean something. Junior year, the words may disappear all together.

But senior year hits us and the words come flooding back. Time has passed and we realize that we only have one year left. Now it's time to sit out on the porch with friends who have become family and think about what the words mean, what it's all about, and whether or not the words are true.

Perhaps the most important question we can ask is whether or not we've been true to the words. When we ask this question, we discover that the truths aren't lost at all. Somehow, the words become a part of us. Davidson becomes a part of us. And by giving life to the words and meaning to the essential truths, we become part of tradition.

Supermodels, Lisa Knox and Lexy D are escorted by Scott McRae in "Weezies" go with everything!

College is sooo College

As soon as I walked out of Belk dorm on my way to class the other day, I knew something wasn't quite right. There on the lawn surrounding Chambers were dozens of what appeared to be piles of snow, and it was eighty degrees! As I walked a little further, I became aware that I wasn't seeing snow, but I was no less perplexed. I seemed to be headed straight into a herd of albino elephant seals. I kept on walking, though, and was very relieved to discover that I was just seeing students engaging in that age-old springtime college tradition of sunning, studying, and frolicking about the campus quad on one of the first days of nice weather.

I have never really understood why students do this. I, too, am as white as rice and carry around an extra layer of winter fat at the beginning of spring. And while you might find me sweatin' to the oldies in my room in front of my desk lamp, you can for sure bet that you won't catch me lying around on the grass. It just doesn't make sense to me -- nobody in high school studied out in their yard. The only solution I can think of is that they think this is how they are supposed to behave in college. You can't really pick up a college brochure that doesn't have students throwing frisbees and socializing out on some lawn.

However, this isn't the only bizarre thing that is practiced by college students. I have forever

wondered why so many people here wear Teva shoes. Whenever I ask one of my friends how he can go to class wearing something that basically amounts to a high-top flip-flop, I usually hear something like "dude, they're just so comfortable and hassle-free." I'm sure a loin cloth is also comfortable and hassle-free, but you won't catch me wearing one (for obvious reasons.)

Another thing that baffles me is how many cars here have some type of rack on top of them.

There are racks that hold everything from surfboards to kayaks to water bonges. There is a certain group of students that are more "collegish" than most. They are the people that refer to concerts as "shows." As in "man, I was in rare form at the Dead show last night," or "that Widespread show was sooo kind." These people can be easily spotted because they

have stickers of their favorite bands all over their cars. Believe it or not, I have actually seen a couple of cars that have both stickers and racks. These people should just go ahead and get their diplomas because it would be impossible for them to get any more collegiate.

I have been worrying that I have lagged behind my fellow students in accepting these new ways of life. So I have strapped on some Tevas and tied a canoe to the roof of my car, and as soon as I cover my car with some stickers, I'm heading out West to follow Phish. Maybe I'll wear a loin cloth. See you in Boulder.

Sure, I have couple of shirts that contain the words "Coed naked" followed by the name of some sport, but that isn't enough.

Home Sweet Home

By Mandy Curtis, Bobby Ramsay, William Robert, and Russ Tarver

When you become an alum of your high school, you can't wait to get out. You want to move on, get things going; you might even avoid the old campus like you would a malarial swamp.

College alums act differently. The love coming back, reminiscing, visiting friends, and having an excuse to get crazy drunk like they used to. Some stay longer than they planned and cry they miss the place so much.

"I want to be here again; I want to walk everywhere I want to know everyone," alumni are known to say. Leaving college is like losing security; there is little comfort in a wide expanse of strange sights and strangers. Here, you are embraced even by the air you walk through.

"My education incredible knowledge I of stimulation: once you are or you don't. Here, you have over.

"It's in the atmosphere here, and we liked it. one who visits the Careers job, internship, or activity to up commencement with us sign up for something, you're in.

So, is it security, a hold on us as graduates? Or is it relationships formed in the context of common experience? Or both? "Listen. You can hear it," said one alum. "You can smell it, too. It's in the air."

"What is?" we asked "Me. And my class. And everyone who has graduated from this place. We're in the air. We're in the dirt and the trees. And that's it - we'll always be here."

"...and it stoned me just like going home."

- Van Morrison

JUNIORS

THE CLASS OF 1997...AT HOME AND ABROAD

Can you believe it? Freshman year seems like yesterday... and some of us actually chose to relive those awkward mixers and those gourmet meals chez Commons. Others of us went further than Kobe, Les Trois Faisans, Lotus, and Mama Mia's to satisfy our cravings for international cuisine. Whether at home or abroad, all of us remained unified by common experiences like turning 21, finding senior apartments and joining the ranks of upperclassmen.

Davidson, Home of the Beautiful People, Tanner Thompson, Warren Buford and Amber Huttman pose as Mordecai Stolk toils their plan for the perfect recruiting photo.

Not That There's Anything Wrong With It. Caroline Bynum and Jen Beebe pause as they cross the threshold.

Why You Wear Your Pants Like That? Tora Chavis shows per form as Jocelyn Schultz works at it and Lori Bramblett hides from her public.

Hey Look! Another picture with funny clothes and beer.

Slip Slidin' Away. Justin Pascal and Brian Miller smile while Lisa Darson is glad to only grease his left knee

Me Love You Long Time. Michelle McDonald, Henry Darst and Megan Driscoll lead a flamboyant lifestyle

Kelly McAister. Enough said

Hello, My Little Babooshka. Nina Blount at the 1996 Ms. Siberia fashion show

R & R — Ili Stephenson, Lucia Plosser and Suzy Sperssett rest from a retreat full of hiking and role playing. Always watching over them is an RD — can you find him?

Never Fully Dressed Without a Smile — Rob Voglebacher and Chad Fogleman provide weekly entertainment for their hall.

Rollin' With The Homies — Jonathan Coulombe sets a fashion precedent for the boys of Third West.

Kids in the Hall

By Jill Stephenson

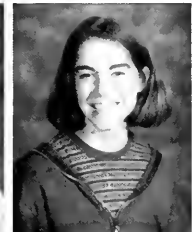

One of the most difficult things to do in the world, in my opinion, is to describe the hall counselor experience. Yet, my cohort asked me to do just that. It began with one of the more frantic weeks of my life -- freshman orientation. Parents can ask tough questions. To this day I still am not sure how often the bathrooms get cleaned. The excitement and confusion were remarkable, and somehow we, a bunch of naive juniors, were chosen to orchestrate the ordeal. From that week onward, we would never see Davidson the same way again. I will never forget the first impressions. I actually believed that I might get some sleep this year. The behind-the-scenes aspects of the freshman experience require more than I ever imagined. Planning mixers demands more than organization -- creativity is up there, too. Some of my favorite programs that the class of 1999 were subjected to were the Cold Cut Combo, the Penthouse Party, Ulti-Night, Body Painting 101 Life, mate Frisbee Takes the and Pastries for Project

There is definitely more to hall counseling than just answering questions and planning mixers, surprises and fun. When asked to sum it up in one word, Lucia Plosser exclaimed, "CRAZY!" This is not to say that I expect the sheer amount of excitement, RLO demands, and concerning members of the op-depth research into the experiences of my fellow hall counselors. Some never have to spend the night in the hospital on Self-Selection night. Jennifer Hibbert claimed never to have guessed how much she would learn from her hall. Chad Fogleman and Rob Voglebacher laughingly recall learning of the hall keg a week too late. Wendy Nichols talks fondly of the weekly "Chinese Night" where scallion chicken served as the backdrop of great bonding. Josh Fowkes breathed a sigh of relief each day that certain resident outweighing him by 60 pounds never needed to be carried home. Suzy Spersert once made a deal that she could have regretted; if our hall didn't attend Senior Men's Champagne Party, she would become the proud owner of a piece of permanent art from Mel's Tattoo Emporium. Luckily for her, Fourth Cannon never missed a party.

All in all, it has been one great time after another. It has been a rediscovery of all the wonderful things that made Davidson so special. More times than once this year, I have referred to myself as a freshman. At times, it seemed far too much to handle, but not because of an overbearing amount of responsibility. Instead, the people that were assigned to our halls have become much more than just a responsibility; these freshman have become some of my greatest friends. As Chad and Rob so eloquently stated, "I want to live with these guys for the rest of my life!"

"I want to live with these guys for the rest of my life."

more to hall counseling than just answering questions and planning mixers, surprises and fun. When word, Lucia Plosser ex- every apt. Never did I excitement, laughter, plan- problems (especially com- posite sex). I did a little in- experiences of my fellow hall thought they would really

LEGAL AT LAST

A few months before my 21st birthday, I began planning my course of action. As I counted down the weekends before the Big Day, I thought about bars to visit and old restaurants to return to where the waiter had asked if I wanted "a Coke or something." I couldn't wait to slam down my I.D. just to prove my legality. Although I wouldn't say turning 21 has changed my life, my 21st birthday was my best thus far. Better than getting my license, and yes, even better than voting.

Not only did I know how important this day was, but so did all of my friends. The weekend of my birthday, I received warm birthday wishes, gifts, and cries of anxiety from my parents. Whether they feel a personal obligation to call and take you out or they're hoping for some gift in return, your friends treat you like a VIP for at least a day.

Why is it such a big deal? Turning 21 is basically your ticket to independence. It's the freedom to explore cheesy Cornelius bars or breweries in Charlotte--legally and with confidence. It's drinking a Bloody Mary with your friend's parents at breakfast. It's going to Carolina Beverage Mart and learning what the experts drink (according to the owner this includes Sierra Nevada Pale Ale). And certainly you're entitled to a change of scenery on the court -- the BASEMENT.

A 21st birthday marks the end of a series of restrictions. I feel, in a melodramatic sense, liberated. If I want a beer, I can buy one -- just like any other adult.

JYA Across the Pond

Oh, to go abroad. Many leave Davidson to do just that, leave Davidson. Many do it to get credit in their major, some do to get fluent in a different language. Some go just to have fun, to savor youth for one last time before graduation comes too near as reality sets in.

I spent the fall of 1995 in Seville, Spain and had the time of my life -Spain just might be the greatest place in the whole world. It's warm, beautiful, relaxed, friendly, cheap, perfect.

However, I was only one of the hundreds of Davidson students who left for a semester to immerse myself in another culture. I have friends who visited chateaux in France, frequented beer gardens in Germany, lived the Sound of Music in Austria, partied in pubs in England, and studied the wild in Africa.

One of the most amazing things about living in another country is that you learn to look at the world as a much larger place. You find that some stereotypes hold true, but many are soon proven false. Things that may seem amusing and weird at the first of your journey eventually become custom, and you learn to respect a culture for what used to appear irrational or confusing. You learn appreciate ways of life that you never would have even contemplated in the United States.

Coming back to Davidson is a challenge when you have been so free for four months. It is hard to get back into the set routines, social patterns and endless studies. However, most people who come back do so with renewed vitality. Davidson is a different place upon return. Life suddenly seems shorter, graduation nearer and social life less important. Classes are easier to tackle and night in the library are a little easier to get through.

Although most of us left a part of our hearts overseas, Davidson also becomes a more beautiful place. You forgot how beautiful the campus is and about the joys of e-mail and study breaks at the Union cafe. Your professors are interesting and you forgot how fun your friends are. All the little routines seem a little more fun.

Maybe all of this is just me -it's likely, since every single one of us had a completely different experience. However, there is one thing I am sure we all have in common -very few regrets.

In a Land of Their Own

For many, Junior Year Abroad means living on the other side of the world with strange sights, strange people, strange languages. For other, Junior Year Abroad means living on the other side of Main Street on the wrong side of the tracks with strange sights, strange people, strange languages. It means living on your own. It means paying bills. It means not paying bills. It means not having any water.

While you sit warm and cozy in your dorm room and wonder what it's like to live off-campus, we bold adventurers wonder how we ever lived on campus. We wonder if you'll ever come visit us. We wonder if it's just that ourphone number isn't listed in the directory. We wonder if we can still get light bulbs from RLO. We wonder if we're still enrolled.

It's not easy getting up with the sun so you can make it to class. With a cold wind in your face, you trudge to campus, in search of Knowledge. Frequently, it's a lot easier to stay in bed. And a lot more fun. After all, you have an excuse-you live off-campus. Your professors understand. And they're kind enough to call to see if you're still in their class.

"It's not easy getting up with the sun to make it to class. . ."

PROS and CONS of Dressing Up

* You can pretend you are someone else for the night. i.e. your parents.
 * You keep the Salvation Army in business.
 * It's cool to know all the lyrics to 80s songs. Who doesn't know the lyrics words to "Livin' on a Prayer?"
 * For some, tube tops and acid washed jeans are still a reality. If this is someone you know and care about, please contact the fashion police.

* Local eating establishments might deny your patronage.
 * Too much dressing up will put J. Crew out of business.
 * There's a point in the night when suddenly the novelty of blue eye shadow and hairspray wears off.
 * You actually grow attached to your bell-bottoms.
 * You wish 80s tunes had never died along with cassette tapes.

SOPHOMORES

Down the Hill: aka Sophomore Year Abroad

Sophomore Slump

by Meredith Moseley

Sophomores arrived at Davidson in the fall of 1995 full of anticipation for the upcoming semester and hoping to relive the events of the previous year. They soon came to realize, however, that those days were gone and that summer had created odd quirks in close friendships. Feelings of disassociation from the rest of the class, more challenging courses, and a new found seriousness concerning studies depressed many of the second-year students. Cindy Seegers said, "I wanted things to be the same as freshman year, but as the semester progressed, I realized it was time to add new friends and experience new things. I was glad that I was able to make additional acquaintances and, at the same time, strengthen old relationships."

Second semester brought some relief to the sophomores' slump as they began to see the light at the end of the proverbial tunnel. As they expanded their interests and became more deeply involved in their various activities, each student found his own niche in the Davidson College community. Amy Biber commented, "Over Christmas break I realized that I only had two years left here, and I would prefer to make the best of them and treat them as an opportunity rather than something I simply had to finish." Now, after conquering one of the most difficult years of college, rising juniors are better prepared to face the new challenges of the semesters ahead.

Wise Fools

.....

Swingin' Sophomores. Cooper Dean and Britton Taylor are taking their dates on a hike

Trucking For Jesus. All Doug Cutting needs is an eighteen wheeler

You heard the Rocky theme playing as you arrived home from your freshman year at Davidson. You had lived to tell the tale. Little did you know how quickly three months could pass... Poof! Suddenly, you're back in drop/add. The beauty of the situation is that while you are once again in the Running of the Bulls, you are now a bull with experience. So, when the readings, deadlines, and impossible syllabi begin to rain down, you don't panic as you did the year before. This is good, because you want to save all your stress reserves for choosing your major. This is bad, however, because you have managed to look beyond Procrastination's evil, all-nighter side, and the two of you have become close friends. He comes to visit much more often now, because as a sophomore you know much more about what's going on...and suddenly you find yourself in charge of what's going on. While last year you ventured out with hallmates and that good old Davidson spirit to "get involved," this year you are leading unwitting freshmen into the mouth of Extracurricu-

lar Commitments. Maybe you're the one presiding over the meetings and sending voice-mail to massive distribution lists. You've developed a 3-3-7 reflex upon hearing the name Brenda Harvey, and you experience the sensation of learned helplessness upon hearing the name Bob Stevenson. Having discovered what's inside that building you never entered last year, you find that it is your new passion and thus your new home. Looking forward to the Tree Lighting gets you through the terrifying weeks before Winter Break. Some friends grow closer and others more distant. You're learning more and more about the diversity of opinions that lie beneath the deceptive near-homogeneity of Davidson. The weeks fly by, and you struggle to decide the direction you want to go. Major-shopping is over. Study abroad plans must be made. Although you never thought it possible, the Davidson pace has quickened. Breathless, you find yourself near the end of the race and desperate for another Rocky theme moment. You're in shock, because you're almost a junior.

A Little R & R. Meredith Rachinsky heads to the mountains (for a Busch?)

Slumber Party. With limited space down the hill, these sophomores take advantage of what they've got

BATTLE OF THE DORMS

UP THE HILL

10. Rooms are bigger.
9. No creepy men peering in the windows from the woods.
8. Closer to library.
7. No heart attacks from walking up the hill.
6. Sinks in rooms.
5. No one pees out of their window.
4. Right near the laundry.
3. Closer to Chambers.
2. Four flights of stairs to trip up or slide down.
1. Closer to Belk, Sentelle, and Watts (for those late night visits).

DOWN THE HILL

10. RLO doesn't know the dorms exist (so far as work orders go that could be bad, for all else it's good, very good).
9. There's always something going on.
8. A TV & soda/snacks are right next to you.
7. Some think the walls are thicker and it's okay to be loud but actually the whole dorm can hear you.
6. Prime parking spots.
5. Cat cards not as necessary. Windows are an option.
4. You get to watch people hook up in the woods.
3. Sophomore year abroad.
2. The Court and all of its amenities are just steps away.
1. The opposite sex is next to you or on top of you (their rooms silly).

FRESHMEN

Survival of the Fittest: Class of 1999's Freshman Experience

Freshman year started as quickly as it ended. From orientation to first night down and self-selection, we, the Frosh, arrived with fears and expectations. As the youngest class once again, we soon learned the ropes and managed to survive. Our hall counselors, hallmates and the occasional call home helped facilitate the difficult transition to life at Davidson College. The weeks flew by as we got involved in classes, activities, the Court, and the stress of it all. But we, the last class that will graduate in this millennium, with our new friends and our new memories, finally found our niches.

Uh, mom? Erich Hickey, Scott Briggs and William Moretz slide out to satellite and try to laugh off the damage.

Shock Me. Life guard Fileen Dwyer celebrates the big 19 Rich-style

Strugglin'. Dave Clinton collapses in laughter and is too tickled to get up

Relaxed. Katie Sanderson and Matt McKellop are cool, calm, and collected during Warner Hall's Patio Party.

Speechless. Drew Lindsey is wondering what to do next.

The Life of a Frosh. Samia Mohammed and Latasha High seek solace in their stuffed friends, while Yu-jay Harris contemplates the good life.

Serious Business. Barrett Mallos prepares to become an ice-skating machine.

Drenched. In full force, Christina Biedermann and Leshe Rowe stack their cups in honor of self-selection.

Support: Luke Snyder rests on friends Dan Cook, Katie Williams, Matt Copeland, Polly Beth Proctor, and Jeff Harrell

Intramural Basketball. Members of the Cult, John Leshe, Evan Tiska, Bob Lonergan, Mason Morgan, Erich Hickey, and Matt McKillop celebrate yet another victory.

Those Crazy Frosh. As their dates watch in amazement, Coleman Brooks, Bradley Oliver, and Matt King let loose at North Harbor Cafe before Midwinters.

Cute. Buddies Shauna Griffin and Kim Lichtenwalter link arms for a smile.

THE ODYSSEY EXPERIENCE

The Odyssey Program, sponsored by Davidson Outdoors, allows freshmen the opportunity to meet other incoming freshmen while adventuring in the wilderness. Arriving a week before Orientation, Odyssey participants were divided into small groups, each led by two upperclassmen. For seven days, these adventurous spirits scouted the beautiful Appalachian Mountains and canoed the white waters of the French Broad and Chatooga Rivers without the luxury of bathrooms or showers. According to the survivors of the Odyssey, this week-long, intense experience fostered great friendships--bonds that make the transition from high school to Davidson much easier and much more enjoyable.

Bonding. After an exciting day canoeing down the Chatooga River, Michael Albert, Stephen Ryan, Jonathan Brooks, Will Bradshaw, Jonathan Sipling, Davey Bacon, Brooke Bagwell, Lon Cook, Ginger Brazda, Beth Morrison, and Jean Boehmler pose for a picture.

Muscle Fatigue. Senior trip leader Jonathan Brooks and freshmen Jonathan Sipling and Stephen Ryan take a break after a day of hiking.

Orientation

They say you can never make a second first impression. Sigh. Day one: Line up, walk through the Union, get passport stamped in order. simple procedure, right? Nothing terribly humiliating in that until, of course, you go to the 900 Room. We were asked to choose between getting our pictures taken with large gavel or an inflatable woman. Not wanting to predispose myself to a life of celibacy at Davidson, I chose the gavel. (A lot of good it did me.) Some of us wore sombreros. Ariba. And carried signs saying things like, "I like fasting and small children."

I could hardly contain myself when I walked down those stairs and receive my communion as a Davidson student: clean bed clothes. Next came the famed Davidson first kiss. "Hey," I thought, "if they do this for Freshman Orientation, what the Senior graduation like?" Big misconception. I got a glob of chocolate and a lesson in what relations with women would be like for months to come: melts in my dream not in my hands.

What next? Move in and meet the roommate. RLO, what were you thinking? Didn't we take personality tests to place us with people we are similar to?!? However there were upsides to those first few nights. Total freedom plus no homework equal one very wild social life. First there were the "How far can you hydroplane on Coors" contests and the hall counselor-regulated parties in Little. Then came, "Let's walk over to the girls' dorms and prowl the halls like desperate predators until we spot some stragglers." The purple handbook, deemed the "Meat Book," certainly was useful. Some people suffered all year long because of one of those pictures.

Day two: make the Frosh feel stupid. Okay, so we don't know who Butro Galee is. Neither do we know the second major export of Brazil. Oh well.

That night we were lectured in small groups on the offenses that would get us expelled. Cheating. (Reasonable.) Watching others cheat. (Reasonable.) Thinking about getting good grades that, for many of us at Davidson, could only be the product of said cheating. (Uh oh.) Forgetting to check out a library book. (I'm dead.) Hanging up a street sign. (Say what?) It made me worry about that pencil I took from the English diagnostic essay the day before. Surely that wouldn't get me kicked out...

Then the farewell to our families: Sniff, sniff. Good-bye Mom. Good-bye Dad. Drive safe...Yes, I'll call...Yes, I'll be...No, I'm sure my roommate isn't going to kill me...Yes, I know I'm allergic to eggs.

Yes, I love you too.

Monday morning came, and with it the "normal" Davidson experience ("I have three reviews, two papers, and an AT tonight"), but despite the year that has passed, some of the memories are still fresh. And in a way, they are revived each time we say good-bye to our parents on the phone, and hello to Davidson, our new home.

CAKE RACE

By Kirsten Recknagel

According to Davidson tradition, the Class of 1999 began their four years here with a bang - the bang of the starter's gun.

Within days of arriving on campus for orientation, this year's freshmen and freshwomen amassed on Richardson Field, bonding with new friends as the seconds before the annual Cake Race, a one and a half mile road race around the campus, ticked by.

The men raced first, followed moments later by the women. When the gun sounded, competitors headed out of Richardson Stadium. They returned minutes later, sweating and gasping for breath, to conclude the Cake Race with a one lap finish around the track. Once the last racers had crossed the line, an award ceremony, for which the race is well known, was held on the field. Victory proved sweet for the top 25 men and women finishers - each was awarded an entire cake, donated by members of the Davidson community.

First Rich Runners. Janet Duncan, Ellen Rockwell, Elyse Weitman, Beth Brewster, Cameron Martin, Laurie deVegeter, Jenny Klotz and Nora Kizer are ready to race for the cake.

Chicken Head. Jason Lea and Clayton Schloss party in cool attire

First Night Down

Among many traditions at Davidson is First Night Down, the rite of passage party for freshmen on Patterson Court. Freshmen eagerly awaited the third weekend in September when they could fully appreciate the social aspects of the Court: the FAC's, SAC's, late nighters, and date functions.

That Friday night, the majority of freshmen halls could be seen at Prime, an all-you-can-eat restaurant in Cornelius, filling up on pasta, yeast rolls, and bread sticks. One worldly first Richer commented, "If you eat a lot of them you won't get sick -- or so I've heard from my hall counselor."

After dinner, the festivities began. The BSC and fraternities held parties, some with excellent bands like Sig Ep's "What It Is." Upperclassmen helped the frosh celebrate by running up and down the stairs with countless frothy beverages. First Night Down fizzled out at The Outpost, where many freshmen, no longer banned from the Court, experienced the delicacies of quesadillas and nachos. Full of melted cheese and salsa, they returned to their dorms to rest for Saturday night. Whether or not First Night Down lived up to its wild reputation, the majority of freshmen had a unique first experience with Patterson Court, no matter if they danced at Kappa Sig, conversed at the Outpost, or grabbed their first "hook." Truly, First Night Down was an experience worth trying to remember.

MIX A LOT

Doctor's Orders. Miara Nealon and Sara Clark relax together

Close Up. (and hking it) Phil Rawlings, Matt Burkhardt and Brad Stoble get excited for the camera

Assailed with a new home, new neighbors, and a completely different way of life, the college freshman is often understandably overwhelmed. Getting to know hallmates--the first step in the acclimation process--is quickly followed by the startling discovery that life exists beyond one's freshman hall. Eager hall counselors help to bond the class through getting-to-know-you activities. They also succeed in embarrassing no small percentage of their troops.

From outings to Ben and Jerry's (or Carolina Cones) to ultimate frisbee to lake campus trips, hall mixers emerge as a means to get freshmen (male and female) acquainted. Ice breaking small talk about hometowns, classes and roommates slowly evolved into more substantial, interesting conversations. In some cases, true friendships are formed: a real match.

Although not all hall mixers successfully unite the halls involved and not all activities result in lasting ties, the mixers are a good start. Mixers are what you make them. The timid freshmen learn to speak out a little more, smile a little bigger, and open up to a new world of opportunities.

SELF SELECTION

Wild Nights. Although drenched with champagne, Tantivy Gubelmann, Eugenia Leath, Levi Beermann, and Whitney Krebs live it up during Self Selection.

R

-U-S-K, Husky Rusky All the Way...!!!!"

This rowdy sound brought freshmen, and other innocent sleepers, out of their beds the morning of Self-selection. Everyone knew it was coming, but really, how can anyone be prepared for a herd of screaming girls at 7:00 a.m.? After the Ruskies left, the Jesters and Wappa Happas soon followed, congratulating the newest eating house members with a t-shirt and some breakfast.

As the doors swung open, champagne flew in every direction.

That night, freshmen flocked to their respective houses, clad in old jeans, boots, and even ponchos. As the doors to the houses swung open, champagne flew in all directions. The Frosh members had been christened! "I hope the rumor about beer being good for your hair is true," mused one soaked Freshman. "If so, I'm going to have healthy hair for a long time!"

During the laughter, photo-ops, and beer slides, groups of scantily clad fraternity pledges, and even some brothers, moved through the houses. According to one Freshwoman, "After a while you just got used to it. But the worse was when they decided to stick around and dance!"

In the days to follow, the pictures came back and the memory blanks were filled-in. Self-selection was certainly a night to remember...or maybe not?!?

history department

Brian Krehmeyer

The appeal of the history department is legendary.

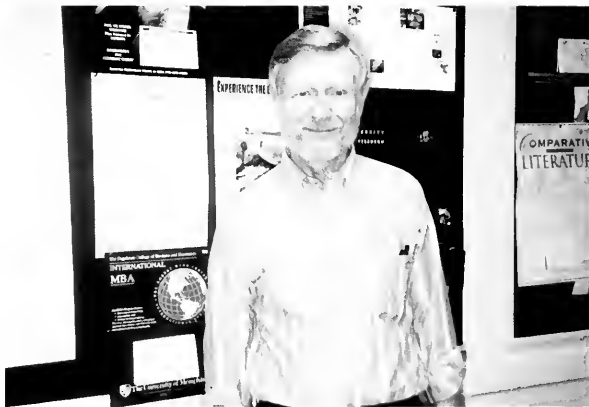

What words are fit to describe them? They are truly extraordinary individuals, the history professors at Davidson College, but as a whole they are unmatched. Students rave about the department members' delicate balance of intellect and personality and their uncanny ability to communicate with students in ways that make learning easy. There really is no wonder why history remains one of Davidson's most popular majors when the department contains such icons as Dr. Partin, Dr. Leering, and Dr. Ballard. The list goes on and on. Each and every member of the department is vital to its success. They are, without question, leaders in the world of academia.

This year was no different from those in the past. The department continued to mold some of the best students into fine historians and connoisseurs of antiquity. It appears imposing at first to major in history. However, like the sincere guidance a parent gives to a child and the encouragement a coach gives to a player, the professors nurture a sense of pride in students to accept the challenge of becoming a history major. There exists a glorious tradition among those who have successfully endured its requirements. Several appealing courses covering an assortment of regions and time periods lie ahead of the young history major, but these rigors of study bring history

majors closer to each other and to their professors. This relationship becomes so tight, in fact, that we prefer to consider ourselves a "family" of sorts.

Our long journey of majoring in history culminates with Senior Colloquium. Here the eldest of this history family commune as an entire body for a semester's worth of study. This year Dr. Earl "The Pearl" Edmondson masterfully navigated us through the labyrinth of "nationalism."

The professors in the department are more than simply experts in their respective fields; they are also friends and role models. Students respect and admire them. Happy O'Brien, Class of 1996 and history department mascot, admitted, "If I were to die today and come back as somebody else, it would no doubt be Dr. Partin." A lazy stroll through the third floor of the north wing of Chambers will tell of the close relationship students have with professors. Office doors are always open and inviting to conversation. These conversations may have nothing at all to do with history or course work but rather focus on students' futures. Davidson's history professors are forever willing to share their experiences with their students and ready to distribute sound advice on a variety of topics when needed. They are held in such high regard by their students that their advice is "as good as gold." Gus Quattlebaum, Class of 1996, declared, "Dr. Leering is more of a man than I could ever hope to be."

Above: Earl Edmondson, Professor

The professors in the history department really care about their students. From the day to day classroom interaction to the arduous two-hour openhouse during Parent's Weekend to the annual History Department Picnic at the Lake Campus to casual get-togethers at their homes, the history professors work to move beyond the rigid barriers

that set teachers and students apart. They fight to create a learning environment where everyone can contribute their view. And, they work to develop the whole student. The professors of Davidson's history department have set a standard of excellence that we all strive to obtain. Few may achieve it, but we all come out ahead in our quest.

political science department

by Jonathan Sands

The Political Science Department has evolved beyond its old unofficial title of "Poli Slide" into one of Davidson's strongest departments

SThe Political Science department has proven to students and faculty alike that it has evolved beyond its old unofficial title of "Poli Slide" into one of Davidson's strongest departments. The combination of outstanding and enthusiastic faculty with new and challenging courses continue to attract new majors. Faculty have successfully initiated current affairs and new theories into the classroom making the driest of course titles seem relevant and engaging.

The department was led by Chair Dr. Tom Kazez. He returns this year after spending last semester nursing an injury from a heated faculty volleyball game. Kazez made an especially strong effort at rehabilitation so as not to miss the chance to work with the outstanding majors

in the 1996 Senior colloquium.

Dr. Kazez's specialty is American politics which is also taught by the talented Dr. Susan Roberts and Dr. Mary Thornberry. Dr. Roberts' focus involves many facets of politics in America including the legislative process, parties and interest groups, and the presidency. Dr. Thornberry focuses more on the aspects of the Judicial branch of government. She teaches classes in feminist politics, constitutional law, and civil liberties.

Dr. Louis Ortmyer, Dr. Shelley Rigger, and Dr. Kenneth Menkhaus teach international and comparative politics. Dr. Menkhaus, (Menkwho?), returns from a two year absence after spending a year in Somalia on a peacekeeping mission where he assisted the UN with his quick wit and tribal dance skills. He spent a second year at the War

College, teaching America's military how to wage peace. Drawing from first-hand experience in Taiwan and China, Dr. Rigger adds to the department with her specialty in East Asian Affairs. Along with his outgoing presence in the classroom, Dr. Ortmyer continues to stun colleagues and students with his vast knowledge of European politics.

Political theorists, Dr. Ahrensdoerf and Dr. Brian Shaw comprise the last component of the department. Dr. Ahrensdoerf teaches classical theory, and he also hosts the department's recent summer program for overeager poli-sci workers with a "thrill for the hill." Dr. Brian Shaw covers the modern and contemporary fields of political philosophy, exposing ethical and moral lemmas posed in political theory through quite exquisite examples like the "cigarette snuffer."

economics department

While many of these professors mean business...there is a subtle strand of humor and sarcasm that makes the department a very dynamic and personable group.

by Jim Sibley

The economics department boasts many of the most accredited professors on the faculty. The list of awards and publications is long. While many of these professors mean business in their classes, there is a subtle strand of humor and sarcasm that makes the department, as a whole, a very dynamic and personable group. Some vivid examples of their lighter side include the economic comics outside Dr. Hess' office, the names some students came up with for Dr. Kumar's new twins like M1 and M2, or economic jokes on the internet posted by Dr. Martin. You could also say that Dr. Lindsey is not a funny teacher,

"but you would be wrong". Their ability to teach with conviction and high standards combined with their ability to make light of many situations describes the well-rounded nature of the economics professors.

The core requirements of a major in economics provide a solid background for future electives and exemplify the high demand of attention and work that students can expect in future classes. From this point, many electives are offered in international studies, economic history, and accounting. There are also courses in labor and public sector economics, industrial organization, and finance. The major ends with the senior session to be taken the spring of senior year. This both quantita-

tive and qualitative overview of micro and macroeconomics and econometrics allows seniors to graduate with a bang in terms of workload achievement.

It is hard to find professors who while involved in their work and preparation for their class still find time to further explain or reillustrate lecture material to students. Every professor works the door to their office open and comes any students to come in with questions. They regard the learning of each student as much as their own work. Their expectations of themselves and their students are high, it is a constant challenge for the students to meet them half way.

mathematics department

by Jill Dyer

Math Majors-Those nerdy people who do math problems on Friday and Saturday nights and who actually know every function of those cool Hewlett-Packard calculators. Well, that may have been the stereotype for the past 100 years, but this year's math majors are just as wild and crazy as the next guy-or-girl. Senior Sally Atlas often gets asked, "YOU are a math major?" Atlas doesn't know why. "Being a math major isn't that strange-it doesn't mean I come from another planet. I like math and I've enjoyed the classes I've taken here. The professors in the math department are awesome-they rock." That certainly is true enough. There always seems to be at least one math professor burning the midnight oil. They are always willing to help you out with your homework-even if you

go in their office every single day. When asked why he became a math major, Senior Andy Cole replies "Why not?" Junior Amy Scaleucci has a more specific answer to that question, however. "I like math because there is almost always an answer. You always have a specific goal to work toward, and you will almost always attain that answer even though it may seem just a bit out of reach." Perhaps math isn't for everyone, but you shouldn't knock it until you try it.

The Bernard Society of Mathematics (named for a former Davidson professor) works to promote math around Davidson and the community. Each week there is a "Math Coffee" in which a different speaker is presented. The induction speaker at the beginning of every school year is often a very well-

known mathematician. Other speakers include Davidson alumni, professors and current students. The Bernard Society also participates in Math Awareness week in April. The math department also provides a math help session in the evenings where math students can come for free tutoring and a little help with their homework. Finally, the math department is just cool. The close department and the small number of math majors make the math wing of Chambers a very comfortable place to be. You will often find majors just hanging out in professors offices--and not necessarily doing math!!! So next time you walk by, come over and say hello. I promise, it is not as scary as you think. I will leave you with a quote from Matt Griffith. "I like math. I mean, it is just really cool. That doesn't mean I'm a tool."

"I like math. I mean, it is just really cool."

---Matt Griffith,

Senior Math

Major

Benjamin Klein, Professor

Irl Bivens, Professor

physics department

Bob Frey, Professor

Physics. Many are surprised to learn that the word contains more than four letters. But for the other inhabitants of the "bio building", there is no other word that so concisely describes their passions, desires, and usually misfortunes. This year, physics students found themselves meditating on the works of Newton, Pascal, LaGrange, and Maxwell. Meanwhile, the faculty were leaving their own mark on the scientific world. Most notably, Dr. Robert Cline officially made the Dana science building the coldest spot in North Carolina by trapping and cooling cesium atoms to temperatures close to absolute zero. Others include Dr. Wolfgang Christian who co-authored an introductory level physics curriculum to be published and available on the World Wide Web. Dr. Dan Boye made department history by becoming the first physics professor to require students to

"Dr. Boye made history by becoming the first physics professor to require students to attend the opera (front row tickets provided)."

attend the opera (he provided front row tickets), while Dr. Frey's lectures in modern physics moved so quickly they proved the relativity theories regarding time dilation. Dr. Parvinder Parmar hastened to fill the large shoes of Dr. Manning (on humanities leave), and amazingly succeeded. Finally, Dr. Cain attempted to place a kind face on the horrors of Intro Physics with Calculus. Many students were not deceived.

Whether it is the beloved lab science requirement, or the endless pursuit to learn more about the intriguing motion of projectiles, Davidson physics continues to push the ceiling on every offered course. This year was not an exception. Though not the largest department, it is quite possibly the best. With upper level classes often on the order of two students, it's a secret that physics majors aren't anxious to pass around.

french department

We're not just a bunch of wine-swilling freaks who enjoy a command of the language that brought you "C'est la vie" and "bon appetit."

by Vaughn Mc Williams and Holly Wilson

From Paris to Martinique, from Descartes to Cocteau, from the upheavals in Algeria to the referendums of Quebec, the influences of the French-speaking world reach far and wide, and Davidson's French department reflects this diversity in its faculty, curriculum and students. We're not just a bunch of wine-swilling freaks who enjoy a command of the language that brought you "C'est la vie," and "bon appetit."

The French faculty, having trekked far beyond the trials of the subjunctive, bring their expertise in literature, theatre, linguistics, cinema, and francophone culture to the classroom, where students can explore these myriad worlds and see how a language defines, distin-

guishes, and unites peoples around the world. The French majors, in turn, have all had the opportunity to immerse themselves into these cultures and to bring to their own lives, and to the Davidson community, first-hand views of life in different regions of France, Switzerland, and French-speaking Africa.

Five seniors and Dr. Catherine Slawy-Sutton and Dr. Homer Sutton are back this semester from Davidson's own program in Montpellier, France. Last year was our 30th and final year before the program moved north to Tours. The strong community ties, the sun and the beach, the cafes of the Comedie, Charlie's Beer, and --oh yeah -- the universities will be fondly remembered and missed. This year Dr. Alan Singerman and his pack of Davidson

students are blazing a new trail in the city of Tours, where they are vitalizing the JYA-France program meeting challenges, and availing themselves of different, yet equally charming sidewalk cafes.

Meanwhile, the horizon keeps expanding while Dr. Lauren Yoder is on two-year sabbatical and Dr. Frank Jacobus will be leaving the Spring of '96. Remaining behind to hold down the fort are department chair, the whimsical Dr. Charles Dockery, charming Carol Kruger, the smarter-than-you-want-to-know Suttons, and the overworked visiting professor, Dr. Henry Buckley, the salad guy. We, here in the French department, believe that we are blessed with some of the most intelligent and weird-in-a-good-way professors at Davidson.

psychology department

Ruth Ault, Professor

Being a psychology major at Davidson does not mean that I was in love with my father and wanted

to kill my mother as a child. I do not harbor shame and doubt because my parents were either too harsh or too lenient during toilet training. Furthermore, I am not going to summon you onto a leather couch and ask you how you feel, unless of course, you want me to. What I'm trying to point out is that psychology is not a field solely interested in troubled human beings with repressed emotions. Rather, it includes a wide array of fascinating aspects such as language development, "work redesign," motion, and hippocampal neuroplasticity.

The psychology professors at Davidson are the embodiment of the diversity in the field. Each one of

them adds an interesting aspect to the vast spectrum of varying interests of the department.

Dr. Ruth Ault specializes in child

By Kakki McEntire

development, although she also teaches courses such as the Gender Identity Seminar. Dr. Cole Barton focuses on clinical psychology, and he maintains a clinical practice at the Carolinas Child and Family Services. Dr. Dan Cerutti is principally interested in language function and its

impact on our learning about the world. Dr. John Kello specializes in the area of Industrial/Organizational psychology, and similarly, Dr. Maura MacNeil conducts a seminar on "Motivation in Work Settings." Dr. John Kelton chaired the department from 1970 to 1985, and he now focuses his attention on the College's planning functions. Dr. Gretta Munger addresses questions in the area of sensation and perception. Dr. Julio Ramirez's research interests include recovery of function after central nervous system damage and Alzheimer's Disease. Lastly, Dr. Edward Palmer, chair of the department, specializes in social psychology, with a particular interest in the effects of television on children.

es Miserables

or Little Shop

f Horrors?

The 1995-96 school year for the English Department proved to be more than just the same ol' Song and Dance. These Guys and Dolls starred in a veritable Carousel of shows, each showing his or her aptitude for acting as well as the actors in The Sound of Music. "How did this Chorus Line of stuffy professors find their way onto the Broadway stage?" you may be wondering. Well, the details are sketchy, but rest assured that these performances were not merely one-hit wonders. Au contraire, each and every performance was highly critically acclaimed:

Tony Abbott stars as Tommy! "A pensive and captivating performance; I could both see and feel his magic!"

"**Sara Beasley** in La Cage aux Folles is raucously funny! A must see!"

Elizabeth Mills is Thoroughly Modern Millsy..."She takes the Julie Andrews role to new heights -- dreamy, daring, simply darling!"

"Jesus Christ Superstar is resurrected by **Gil Holland's** performance... courageous, captivating --a juicy gobbit for the whole family!"

"**Ralph Black** goes Into the Woods with Emerson and Thoreau, and emerges scintillatingly in Sondheim's satirical, saucy show. A tour de force!"

Gypsy, starring **Gail Gibson** -- "Gibson is outstanding; flamboyant, fantastically unforgettable!"

Shireen Carroll stars in the classic Oklahoma! "I laughed, I cried; it was the fringe on top that made it so spectacular!"

Annie with **Annie Ingram** in the title

role. The story of a young girl and her faithful dog Randy, I mean, Sandy..."A delight! One surprise after the other!"

Singing in the Raingram, written by and starring **Randy Ingram** is "titillating! An emotional rollercoaster!"

Cynthia Lewis stars in Kiss Me, Kate: "A tale of the triumph of the human spirit...passionate and poignant!"

Randy Nelson is The Wiz. "Nelson offers true insight into the man behind the curtain...Gripping!"

Calamity Jane starring newcomer **Jane Elkins!** "Laugh-out-loud funny! A masterpiece of epic proportions!"

Zoran Kuzmanovich in the controversial Hair is "astonishingly accessible...He brings Hair to a new level!"

chemistry department

By Nick Kallan

Chemists aren't
just brainiacs
who only talk
about significant
figures and the
periodic table;
they're normal
folks (in their
own way).

Martin Chemical Laboratory (the building across from the union, in case you forgot) continues to instill fear and loathing into all who seek chemical knowledge within its celestial walls. Meanwhile, changes are abound in the Chemistry Department at Davidson. Not only will you see new faces at the chalkboard lecturing, but you will also see an unusually large amount of students attending these classes. So what's the deal? Is everyone finally figuring out that chemistry is one of the most stimulating subject offered at this school, or is the number of students who need to take the required chemistry courses for pre-med increasing? Whatever the case may be, the department continues to evolve with these changes.

With the recent retirement of long-time professor and patron of chemistry Dr. J. Nicholas Burnett, and with some faculty members taking a semester on sabbatical, the depart-

ment has hired some young guns to fill in the gaps. Dr. Clarissa Jakob has her work cut out as the new professor of Inorganic Chemical Analysis. Although CHE 121 was one of the least favorite among students, she hopes to add new vitality to this infamous class. Another new face, Dr. Kevin Evans, has filled the gap in Organic Chemistry. Dr. Evans has been busy with full sections of his Organic class (owing to the next generation of family physicians). With the new happenings in the Chemistry Building, the department has maintained some equilibrium within the ranks.

Dr. Merlyn "the Wizard" Schuh still chairs the Chemistry Department and can still be found in his office at night with his dogs on the floor. Dr. Felix Carroll (a.k.a. the "Prince of Pun") is still in the process of finishing an Advanced Organic Chemistry text, and some of his jokes are getting funnier. You still have to show up at 8:15 am for Dr. Nutt's CHE 115 class to get all the notes in time. However, his office

no longer has the characteristic odor of pipe tobacco due to the new smoking regulations. Dr. Ruth Beeston, who will be on sabbatical second semester, continues to teach chemistry majors about the realm of instrumental analysis (and she still does research on ruthenium chemistry. Coincidence?) No longer a rookie, Dr. Jon Booze (yes that's really his name) has the honor of teaching (arguably) one of the hardest courses offered at Davidson: Physical Chemistry. Is he insane? Dr. David Blauch still plays with clay in the summer, but his tennis game is improving. Finally, Dr. Mitchell Rhea will be back in action in the spring preaching the word of Organic Chemistry. That's the department in a nutshell. If you are ever in the area of Martin, stop in and say "hello", because chemists aren't just brainiacs who only talk about significant figures and the Periodic Table; they are normal folks, too (in their own way). Shrodinger made waves.

Ramon Figueroa, Assistant Professor

Cecilia Montero, Visiting Instructor

Luis Pena, Chairman and Assistant Professor

Lois Kemp, Professor

spanish department

by Stouy Skaff

Each professor turned a seemingly monotonous subject into an exciting adventure.

Each professor of the Spanish department focused on a different area of literature and culture. Dr. Luis Pena, the department chair, specialized in Latin American Twentieth Century narrative, film, and Mexican nationalism. Dr. Alberto Hernandez - Chiroides taught classes focusing on Nineteenth Century Hispanoamerican literature and culture. Dr. Kemp's forte was modern Spain with special interest in Spanish theater. Dr. Ramon Figueroa, the newest addition to the Spanish department, taught classes in Spanish Golden Age literature. Dr. Magdalena Pena, the 1995 winner of the Jefferson award, specialized in women's studies. Cecilia Montero dedicated herself to nurturing those students beginning their studies.

In A.T. students had the opportunity to communicate in Spanish outside of the classroom setting and learned that statements such as "I do not like to climb mountains with *ropa*" does not mean without a rope but rather without clothing. Students were also given the opportunity to experience Hispanic culture first hand. Some professors offered study abroad programs in the summer, such as the Davidson trips to Guadalajara, Mexico and to Central America. The latter program included travel throughout several countries and participation in various service projects. Other students chose to spend a semester or two in a foreign Spanish-speaking country. All students who studied abroad returned to Davidson with a new perspective and a new accent.

Students who majored in Spanish graduated with a profound knowledge of Spain and Latin America. They began studying literature from the Middle Ages and finished with readings from the Twentieth century. They related the poetry, theater, essays and novels they read to the history and cultures of the countries studied. After proving their proficiency in the language, the students each got to choose a topic on which to write a thesis.

Each professor made a point to be available for majors and non-majors alike. They turned a seemingly monotonous subject into an exciting adventure. Perhaps that is why so many students continued to take Spanish courses beyond the core requirements.

german, russian and japanese departments

These three departments continue to receive growing student attention.

by Whitney Simpson

The department welcomes new member Dr. Maggie McCarthy. Dr. McCarthy comes to Davidson from the University of Rochester, NY, where she recently completed her Ph. D. Her areas of interest are post- World War II literature, German film, and women's studies.

JYA in Wurzburg continues to be a strong and successful component of the Davidson German experience. Dr. and Mrs. McCulloh returned home from Wurzburg in August 1995, as Dr. Burkhard Henke departed with the thirteen students participating in this year's program.

Davidson will host the American Association of Teachers of Berman in March of 1996. Dr. Scott Denham, who helped bring the conference to Davidson, will speak on the topic of German studies today. Dr. Denham is currently working on a book on the Bauhaus, a book on Ernst Juenger, and his book on "German Studies as Cultural Studies" recently went to press.

Russian studies under Dr. Judith Robey continue to flourish. The students of Japanese with Dr. Miller are currently participating in an e-mail program, in which they communicate in Japanese with other students world-wide.

The department offered its first courses this year in Japanese literature.

sociology and anthropology departments

Mark Rogers, Visiting Assistant Profes

By Laura Huggins

So, you are thinking about declaring your major as Sociology. Should you do it?

Of course you should. What better way to learn the true understanding of how social interactions among groups of people evolved and continue to affect your daily life?

Curiously enough, a Sociology major would be able to explain this phenomenon as well as give you the inside scoop on crime in America.

In fact, you may also learn about all the social problems, and their possible solutions, that continue to invade our communities.

On top of all of this, intensive studies concerning ethnic relations among other complex societies would be examined. When you finally have the ability to escape Davidson for a semester or even a year abroad, you will be able to experience and study the social interactions among peoples of different cultures. This may even help you write your Senior thesis, which all Sociology majors are required to do.

Lucky you.

Oh, come on now. Writing a thesis is not as bad as it sounds. It is a great learning experience and an excellent excuse for letting you blow up at your roommates for no reason.

Gosh, you may even use your thesis as an excuse for why you can't go on a date with this certain someone you're not interested in.

You can do it. Declare Sociology as your major. If you are not brave enough to take this step, at least promise yourself to take some Sociology classes before the end of your Davidson experience. You are in for a treat.

education department

by Beth Lindsey

Teaching students to teach

Students of the Davidson Education department are guided through the methods of teaching in public private and independent schools.

This spring found seniors ready to complete their requirements to obtain their teacher's certification by student teaching in schools throughout the Charlotte-Mecklenburg area. Students participated in an intense hands-on learning course including time spent in the classroom to prepare for careers in education. Guest lecturers were also incorporated to contribute to the overall education program. Upon completion of this program, these students and returning alumni went on to teach both in North Carolina and in areas nearby.

In addition to the continual increase in the number of Davidson students seeking a teacher's certificate for the past eight years, scholarships were added to help those students interested in the education program. The first such scholarship was the First Union Scholarship, and others are still in the process of being established

Evelyn Gerdes, Lecturer and Grace Mitchell, Chairman and Associate Professor

Preparing for the future of Classical Studies at Davidson

classics department

by David Speakman

The Classics Department has been involved in an extensive review of the current course offerings and major requirements. After weeks of planning, editing, and consulting with other majors, a new curriculum has been devised.

Dr. Dirk French, as fearlessly and courageously as ever, led a group of sixteen Davidson students on the Seminar Abroad in Classical Humanities and held class in Greece, Turkey, Italy, and Southern France for the spring semester.

The department underwent some changes this year with Dr. Michael Toumazou stepping into the position of Department Chair. Two "new" professors joined the department who are both distinguished in their credentials and by their familiar faces on campus. Dr. Peter Krentz officially joined the Classics Department this fall after sixteen years of service in the History Department where he was Chair of Ancient History. Dr. Krentz will continue to teach courses concerning the history and culture of ancient civilizations. Dr. Jeanne O'Neill is in the second year of her term as visiting professor and adds an emphasis on the Latin language and Roman civilization. The entire campus was excited to officially welcome Dr. O'Neill as an Associate Professor to the department for the coming years.

In everyday life, "if" is a fiction, in the theatre "if" is an experiment.
In everyday life, "if" is an evasion, in the theatre "if" is the truth.
When we are persuaded to believe in this truth, then the theatre and life are one.
This is a high aim. It sounds like hard work.
To play needs much work. But when we experience the work as play, then it is not work anymore.
A play is a play.

The soul of Davidson.

Karl Plank, Professor

religion department

by Shannon Lowrance

You never know
of the meaning of
life is waiting to
be discovered by
you in this realm
of study.

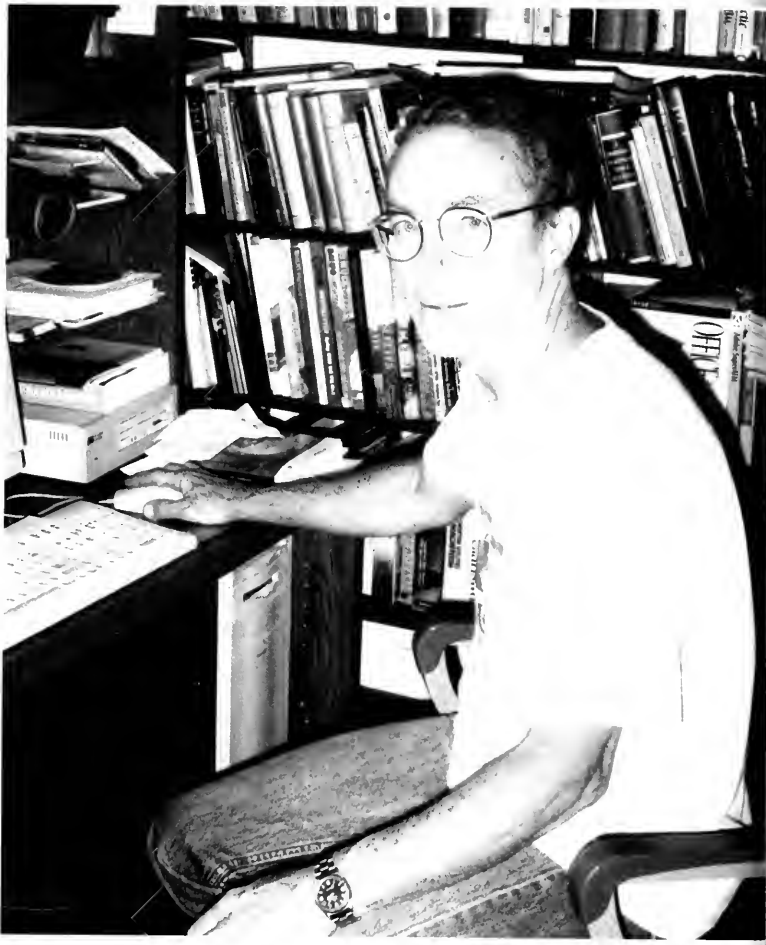

As a liberal arts college, Davidson requires each student to take at least one religion class. Sorry, you can not test out of this requirement! Once into a religious study, you will explore a wide range of beliefs, expressions and experiences. The Department of Religion must not be thought of as offering only Christian classes. The choices vary from systems of beliefs and patterns of religious behavior, history and religious traditions to the function of religion in society. Also, forms of religious expression such as sacred narrative, scripture, theological and philosophical reflection are covered.

Dr. Mahony and Dr. Csikszentmihalyi teach fascinating courses in Asian and Far Eastern traditions, broadening your horizons and opening your mind to comparative themes in religion. Who knows? Maybe you can discover universal truths in our chaotic modern world. Dr. Poland will whet your appetite on issues concerning gender and the body while Dr. Kaylor will take you on a search for the historical Jesus. Students can also explore fields in Jewish studies, the Holocaust, and Christian literature with Dr. Plank. Dr. Foley, through time travel, will carry you to an understanding of human sanctity that emerges in early

and medieval Christian literature. Reformation and Modern Christian thought classes by Dr. McKelway help clarify the Christian traditions of today. Dr. Kuykendall completes our department with historical courses in American religion. It is not difficult to find at least one intriguing area that might encourage you toward more studies in religion.

Religion courses will not make you a prophet, but will open your mind to various beliefs.

council

PCC

The Eating Houses and Fraternities of Patterson Court played an integral part in the social life at Davidson College. Nearly 60 percent of all students were actively involved in the Court. The Eating Houses and Fraternities participated in numerous community service activities, raising over \$15,100 for various charities. Furthermore, Patterson Court members maintained a higher GPA than the campus average for both females and males. Patterson Court provided valuable leadership opportu-

nities, community service projects, and an enjoyable social atmosphere.

The Patterson Court Council was comprised of two members from each house. The PCC dealt with a variety of issues ranging from the alcohol policy to continuing open parties. The Council instituted measures to improve risk management at parties and other aspects of the Court. The PCC continually looked for ways to expand social options at Davidson College.

fellow-
ship of
christian
athletes

FCA

FCA was an organization open to all students on campus. Its mission was "to present to athletes and coaches, and all whom they influence, the challenge and adventure of receiving Jesus Christ as Savior and Lord, serving Him in their relationships and in the fellowship of the church." The chapter provided the opportunity for this mission to be fulfilled through weekly meetings and

large events. FCA met each Thursday in Johnston Gym at 8:00 PM. It also held small group Bible studies which took place several times a week. FCA brought the campus together in several large events. In the fall, the group provided a watermelon snack break for the football team, and led a Christmas caroling jaunt through the community. Spring semester activities included a Super Bowl party in Johnston Gym and

the infamous 3-on-3 basketball tournament. Along with these events, FCA hosted an array of inspiring speakers ranging from professional athletes to local ministers. Before each speaker, or devotional portion of a meeting, leaders added a crazy skit or an amusing game. Every meeting allowed for a good time and a chance to grow in the spirit of God.

ecumenical council

an exciting year, the Ecumenical Council continued to have an active presence on campus. The Council, with representatives from each of the eight Christian groups, fostered communication and community between the various Christian fellowships. Celebrated major Christian holidays, sponsored campus picnics, and served as voice for Christian concerns to the wider campus.

To ensure that all students were aware of the op-

portunities for Christian worship, service, and discussion, the Council maintained a bulletin board in Chambers. New projects included a Christian Unity Event and a Mid-Winter Marshmallow Roast. Working together as the body of Christ was challenging and exciting, but a goal which the Christian community at Davidson enthusiastically embraced.

chapel committee

The Chapel Committee was a programming committee open to all Christian students to plan events and activities for the college and community. The committee had three main focus areas, worship, service, and dialogue, around which events and activities were planned.

In the area of worship, Chapel Committee worked with the Chaplain to plan a worship service each week. Weekly College Worship, held every Sunday evening, became an informal worship service with invited guest speakers open to the entire college community.

Service activities were

an important part of the ministry of the Chapel Committee. At Freshman Move-In, upperclass members in colorful t-shirts helped the new students move into the dorms. At Christmas, the committee sponsored an Alternative Gift Market. Members of the college community bought alternative gifts which supported those in need throughout the world. Nearly \$6,000 was raised for this cause.

Chapel Committee sought to enrich dialogue on the campus through monthly Discussion Dinners. Faculty, staff, and community members were invited to discuss

issues of interest to them and issues concerning their faith with a group of students.

As the statement of purpose declared, "the Chapel Committee seeks to serve Davidson College by providing opportunities for Christian nature and creating a community where individuals can develop and respond to their spiritual calling. The committee hopes to unite all members of the Davidson community in understanding the presence and grace of God in our lives."

A Foreign Feast. A buffet is laid out for SERCH's celebration of Diwali. *photo courtesy of SERCH*

SERCH. Students of the Establishment of Racial and Cultural Harmony, was an organization designed to educate and sensitize those who are prepared to listen. It was an organization of student leaders who dedicated themselves to unifying the student body and college community. The focus of SERCH was to educate about different religions and different cultural and social backgrounds through various me-

SERCH

students for the establishment of racial and cultural harmony

diums of communication. Events sponsored and organized by SERCH included forum discussions about religion and cultural diversity, observances of non-Christian holidays such as Hanukkah and Diwali, and celebrations of cultural festivals such as Cinco de Mayo and the Chinese New Year. SERCH also co-sponsored events with other organiza-

tions such as F L A G ' s Fashion Show and ISA's International Ball.

By opening the minds of others, SERCH strived to develop a sense of cultural kinship and respect among all on the college campus.

CCRL

council on campus and religious life

A challenge was issued in early March, when President Lykendall notified Dean Shandley that, in order to be working toward suggestions made in the Self-Study, the question of the use of common containers for alcohol on Patterson Court would have to be addressed. Over the following two months, members of the Council on Campus and Religious Life (CCRL) met repeatedly as a whole and in subcommittees in order to deal with the "keg issue." Meetings were often tense, and highly-

charged, with numerous outside issues and voices entering the drama. In the end, CCRL members forged a compromise proposal which took a wide range of viewpoints into consideration.

Representing arguably the most influential groups on campus, the CCRL membership encompassed the presidents of the Student Government Association (SGA), Union Board, Patterson Court Council, Reach Out, and the Ecumenical Council, as well as six members of the faculty from

departments ranging from Sociology to Biology to German, two elected representatives from the student body, and six at-large student representatives appointed by the SGA. Other members included the Director of Residence Life, Patterson Court Advisor, Service Coordinator, Director of the Union, and College Chaplain. Dean Shandley chaired the group.

During the fall semester, the group met only twice, in order to discuss some procedural matters dealing with the registration of campus or-

ganizations by the Union. The spring semester, however, brought new business for the CCRL. With such a large and diverse membership, it could appear that the CCRL's most challenging job, to bring a largely popular alcohol policy into line with guidelines established by the Self-Study, would prove far too daunting. Although differences in interests became immediately clear, the debate was constructive and collegial.

riends of
lesbians
and gays

FLAG

Friends of Lesbians and Gays was a student-run organization dedicated to educating the student body about homosexual issues and promoting awareness and compassion. All students, faculty, and the public were invited to join or participate in FLAG events. The group was led by chair Robert Knight and co-chair Susan Plummer, both sophomores.

FLAG began the school year by educating the incoming freshmen in PE 101. Knight and Plummer discussed the issues that homosexuals face at Davidson.

including common trends, chastisement, and personal experiences. The first main event of the fall semester was the Homosexuality and Religion Forum. The program featured Janie Spar and James Graves, who described the plight of the homosexual in organized religion. The second annual FLAG Fashion Show, the biggest and most popular FLAG event of the semester, raised over \$1200 to benefit the Metrolina AIDS Project, Davidson College Habitat for Humanity, and the endowment for the FLAG scholarship.

I'm too sexy. At the second annual FLAG Fashion Show, sophomore Jesse Farranto struts his stuff on the catwalk. *Shultz*

The spring semester also held much activity for FLAG. The Sixth Annual Sexuality Forum provided a basis for discussion about the issues of sexuality at Davidson. The organization created a book display in the library. By supplying materials for inquiries and research, the display presented students with an opportunity to learn more about the different aspects of homosexuality. The group also sponsored a speaker on the persecution of homosexuals during WWII in Nazi Germany.

Top 10 Habitat Rumors...

10. Everyone who works on the Habitat site gets poison ivy, hives, or some other nature-induced disease.
9. Ben Kinnaman used to be the host of "This Old House."
8. The last guy to use a chain saw on site cut off his hand.
7. Katherine Cook and Catherine Turner are up for a Nobel Peace Prize.
6. People who stay late on Saturdays get to play "staple gun war."
5. If you neglect to show up for your work day, you are moved from the Habitat "volunteer list" to the Habitat "hit list."
4. The kiosk outside the Union is actually the model for the Habitat House.
3. Tree stumps are easy to remove.
2. You must have your own set of tools and a cool tool box to come out and work.
1. A Habitat House can be built by only a few people!

reach out

Reach Out programs continue the organization's tradition of actively involving students in service opportunities. The Reach Out officers and coordinators set a goal to have Reach Out become a longer presence on campus and to reach out to as many students on campus. To accomplish this goal, they continued to offer traditional programs including David's Elementary Tutoring and Reading Buddies. To add to service opportunities, they also offered new programs such as the Boys and Girls Club and Youth at Risk. They reached out to the student body through a bulletin board located in Chambers that enlightened students, faculty, and staff of the various service opportunities in the area. Other Reach Out events included the Service Dinner held in late August, and coordinators' retreat in September. During November, Reach Out headed into the

Streets for the national week of service awareness. Events included a speech given by Homes for the Homeless speaker Ralph de Costa, a dance workshop with Chuck Davis, and a Community Dessert contest. In December, Reach Out visited the Pines and spread holiday cheer to everyone. To end the year, the baton was passed to the new officers and coordinators at the Spring Retreat.

democrats

The College Democrats had an exciting year. The chapter began the year with over ten members and ended with membership of over sixty. The officers of the group included President Stephen Aldridge, Vice President Helen Robinson, Secretary Kelly Cunningham, and Treasurer Charlie Oldham.

In the spring primary, members helped candidates Ervey Gantt, Mike Daisley,

and Bill Jackson with their campaigns. Several members of the group were able to meet with Vice President Al Gore at a special meeting for N.C. College Democrats in Chapel Hill.

The College Democrats were also proud to sponsor the Spring Training Conference for the SE Region of the College Democrats of America in April. College Democrats came from four states to learn

about how to become effective campaign workers and how to spread the message of the Democratic National Committee on their respective campuses. Several candidates seeking office in the fall elections spoke at the conference as well as officials from the N.C. Governor's office.

At the spring convention of the N.C. Federation of College Democrats, Aldridge was elected President of the

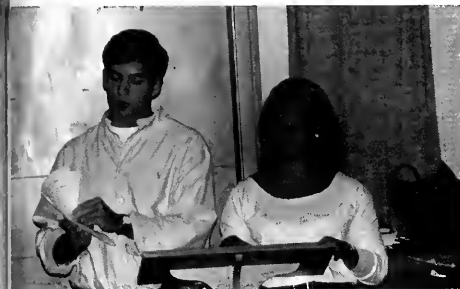

N.C. Federation for the 1996-97 school year.

The College Democrats had a fun, productive year, and look forward with anticipation to the fall elections when President Clinton will be reelected. Jesse Helms will be unseated, and the Democrats will retake both houses of Congress.

Pre-Law Society. Shultz

At the Podium. Pre-Law Society officers David Christopherson and Frances Bailey conduct a fall meeting. Shultz

pre-law

The Pre-Law Society continued to grow in its third consecutive year with significant student leadership. Under the dedicated tutelage of faculty advisor Dr. John Wertheimer, the Society found new ways to serve students interested in a career in law. The group was proud to open its office in Johnston Gym as a resource center filled with LSAT course books, catalogs from law schools across the country, and other helpful information. Senior Frances Bailey led an effort to bring an LSAT prep-course to cam-

pus, and other members worked with the Careers office to host visits by representatives from several law schools. The Society also began an optional application advising program for seniors, whereby students could receive feedback from Dr. Wertheimer and Dr. Mary Thornberry on law school application personal statements. As always, the group hosted informative speakers, including President-elect of the N.C. Bar Association.

republicans

This year under new and eager leadership, the College Republicans gained an SGA charter and received ATC funding, in hopes of a new beginning. Through such events as the straw poll, voter registration drive and absentee ballot drive, students were encouraged to take part in the political process regardless of

party affiliation. Other activities included bi-weekly meetings, a visit from representatives of the Vinroot for Governor campaign and Judicial Candidate Eric Levinson. Our strong drive to bring political awareness to Davidson produced articles in the Charlotte Observer, Mecklenberg Gazette and The Davidsonian.

concert
and
chamber
choirs

choir

Singing at Christmas Vespers, premiering two choral works, and visiting Disney World is just a sampling of the experiences enjoyed this year by members of the choral ensembles. There were two choirs: the Concert Choir, consisting of about 50 singers, and the Chamber Singers, an ensemble of 13 singers formed in 1995. Both groups were directed by Donna M. Di Grazia and accompanied by Sandy Tremblay.

The season opened with a performance by the

Chamber Singers in DCPC on November 29. The program featured works by G. F. Handel and William Byrd, and closed with J. S. Bach's sublime motet *Jesu Meine Freunde*. On December 10th, the choirs continued a popular tradition with the annual Christmas Vespers service. Biblical readings of the Christmas story were interspersed with music. The Concert Choir repertoire included carol settings, selections from Handel's oratorio *Messiah*, and the premiere of composer-in-residence Richard Prior's *Ante Luciferum genitus*.

Both choirs toured through Georgia and Florida during Spring Break. Be-

tween concerts, the group visited Savannah, Disney World, and Epcot Center. The tour program included works by Tallis, Mathias, Copland, and Handel, and concluded with the third movement of Leonard Bernstein's *Chichester Psalms*.

The Chamber Singers joined 17 other Charlotte choirs for Bach Fest '96, a series of concerts dedicated to the music of Bach. Accompanied by the world-renowned Bach Aria Group and members of the Charlotte Symphony, the singers performed the choral movements of Bach's Cantatas 9 and 94.

The two ensembles' fi-

nal performance was held April 26th in DCPC. The Chamber Singers' portion of the concert featured a series of motets by Copland and several other works from their tour repertoire. The Concert Choir's repertoire included traditional American songs, and the premiere of *Logos*, a piece by the group's own Diane Krause. The major work of the evening was a complete performance of Bernstein's *Chichester Psalms*, accompanied by harp, percussion, and organ. This energetic, highly rhythmic piece was a fitting conclusion to the year.

orchestra

The Davidson College Symphony Orchestra had been a living part of the community for two years. Dr. Richard Prior, the Composer-in-residence and Conductor of CSO, reinstated the symphony (it was a group in the 1980s), and took it to new heights. Dr. Prior presented challenging programming, from Mozart symphonies to his own Concerto for Piano and Orchestra with Dr. James Fisher, Davidson's retired

concert pianist. The symphony boasted a full complement of strings, powerful brass, talented woodwinds, and a sterling percussion section. They played music far above the level for an extracurricular activity orchestra. The musicians were more than dedicated and Dr. Prior devoted endless energy to making this program the best possible.

WALT

On January 15, 1996, WALT officially began broadcasting from the basement of Belk dormitory. This date marked the culmination of several years of hard work to resurrect student radio on campus. The station, shepherded to legal life through two years of planning and committee meetings by senior Churchill Hooff, broadcast a low-power AM signal from an antenna located atop Belk.

In its inaugural year, the station was on the air from 6AM to 2AM on weekdays with slightly reduced hours of operation on the weekend. The "college for-

mat" programming was successful through the hard work and creativity of the station's 40 DJs. Programming featured shows such as "Almost Acoustic," "When Vinyl was King," "70's Party, Pandemonium," "80's at Eight," "Club WALT," "Funky Chick Rock," "Sonic Guru Historia," and "Spiritual Jazz." The station also included campus-wide news reports and announcements, and featured guests Sherri Jackson and Robbie Schaefer of "Eddie From Ohio" on the "Soundcheck" show.

Seniors Will Foy and Matt Staton worked hard to

sweep the charts. While the music plays in the background, T.J. Plummer cleans up around the station. *O'Dell*

ensure that the music selection and programming reflected the interests of the student body while providing music that was not accessible on the Charlotte airwaves. The station was also led by Sandra Symes, Jennifer Simmons, Tony Wagner, and Kris Horrocks.

Pump Up the Volume. Just before he goes on the air, WALT DJ Brad Preston prepares the machines for showtime. *Shultz*

Looney Tunes. On their "Eighties at Eight" weekly show, Erica Thomas and T.J. Plummer also known as "Sodom and Gomorrah," talk to the WALT listeners. *O'Dell*

DCTV

A resurrected Davidson College Television squad, led by John Blake as Station Manager, got off the ground this year for the first time in nearly half a decade. The station produced two new shows, Davidson College Sports Center, and The Davidson Tonight Show with Lucian Dervan. Finding the job of producing almost four hours of programming a

week difficult and time consuming. DC/TV boosted its programming with additions such as the Burly Bear Network, College Music Videos, and other student-made productions.

DC/TV strived to create better and better shows for the student body, as well as to offer in depth coverage of athletic contests and cultural events. The DC/TV

staff also produced the Graduation Video and Video Yearbook, when not engaged in basic programming. DC/TV would like to thank Alan Clark, the technical guru, William Brown, Director of the Union, the Union Board, and the student body for watching. *Hard-Core DC/TV: We're in your face, and someone is watching.*

Tune in to Channel 14.

ROTC

Ever wonder who carries the flag on a daily basis? Or, what the heck a 35ft. zipper is doing in the satellite parking lot. Perhaps you've even been taking a leisurely stroll along the cross country trails on a Tuesday afternoon and proceeded to be ambushed by a platoon of camouflaged ROTC cadets unloading their limited supply of verbal ammunition with plastic M-16's commonly known as rubber duckies."

ROTC cadets spend

one weekend a semester at Fort Jackson, South Carolina and 6 weeks of summer at a grueling advanced camp in Fort Bragg, "Fayette-nam." There they get the chance to negotiate high ropes courses, qualify as sharpshooter on the pop-up target range, ride in helicopters and navigate through the woods with a map and a compass. Lucky ones have the opportunity to attend Airborne or Air Assault schools where they learn how to be paratroopers

or rappel out of a Blackhawk. This and a lot more makes ROTC fun. However, I don't suggest you consider it if you mind smearing camouflage all over your face once a week.

To find out more, the ROTC department is tucked away in the basement of Belk. Try it and you'll really be able to experience what it's like to do more before breakfast than most people do all day.

By Meredith Strong

Life in the Barracks. Join ROTC like Lisa Armstrong and Kevin Gaunt did, and you too can carry a 30 pound rucksack all weekend on FTX at Fort Jackson, South Carolina.

Slide for Life. Meredith Strong zip-lines off the 75-ft RECONDO tower at Fort Bragg's Camp All America. ROTC studs spend six weeks after their junior year at summer camp.

On rappel, off helay! All Davidson ROTC cadets have the opportunity to jump off the 50-ft. Victory Tower.

Union board

uzzing center of activity, College Union was known for its wide range of opportunities and programs which brought together all members of the college family.

Whether grabbing a coffee in the Cafe, purchasing the new book in the bookstore, hanging in the TV lounge or attending the infamous "pit," attending a meeting in the conference room, or savoring a cup of coffee at the weekly coffeehouse, students, faculty, administration, alumni, and staff enjoyed the services and programs offered by the Union.

The Union has served the college community since 1922 with valuable services and consistently creative, challenging and engaging programs. The Union Board and Union staff provided over 400 events ranging in

diversity from the Women's Film Festival

to the Rusted Root concert to a Davidson Outdoors rock climbing trip. Although many students identified the Union as a place to grab a Coke between classes, the brilliant minds at work in the depths of the College Union ensured that a variety of exciting and educational events were always available for the entire college community.

Activities such as 21-year-old night, films, the Outpost's Jumpin' Java Cafe, IPC's Blues Monday, and Tuesday morning coffeehouse gave everyone consistent Union programs to look forward to on a regular basis. The Union Board worked hard on annual events, such as Lunar Luau, the 50's Dance, the Campus Christmas party, Midwinters, and Spring Frolics, so that the entire campus had the opportunity to come

together and celebrate those fun traditions. The new semester calendars helped organize and condense the vast amount of programs available and allow people to plan ahead for special occasions.

With a new Saturday Night Live series, the Union met the demand for "more stuff to do on the weekend" and made a commitment to offer programs every weekend. The series included a talent show, a dinner theater, a casino night, small-town bands, and comedians. The most popular Saturday Night Live was the sold-out performance by Joan Osborne and Rusted Root in Love Auditorium.

Although the Union was an important source of fun and social activities, the Board also sought to provide educational programming to complement the academic curriculum. Speakers such as Harry Wu and Christina Hoff Sommers stirred up dis-

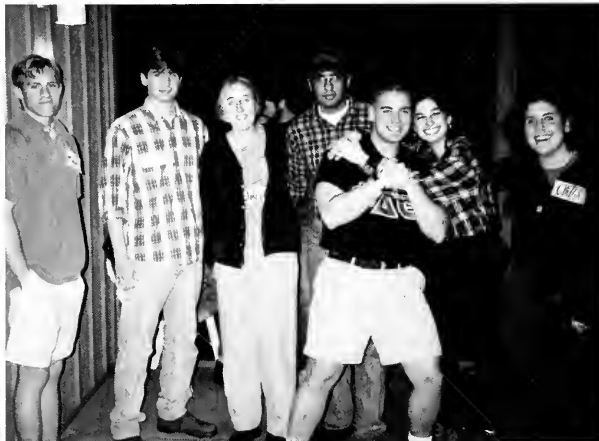

ussion, and events including the International Festival, the Chinese Magic Review, the Chuck Davis African-American Dance Ensemble provided insight and appreciation for various cultures. Solidarity Week '96, kicked off by the Inaugural Ceremony for the Davidson Habitat House, celebrated outreach into the community with such thought-provoking programs as *Rap on Race* and *Black Man Rising*. Artistically inclined individuals appreciated the Gallery Committee, which decorated the walls of the Union with exhibitions by student and local artists. The Artists Series enjoyed a successful production of *Halley's Comet* with John Amos, and the Intimate Performances Committee also found considerable success with the bands *Vertical Horizon* and *Eddie From Ohio*.

These events were just a sampling of the hundreds

of programs organized and implemented by the Union Board and Union staff members. The Union also provided many valuable services for the college through the efforts of a dedicated staff of student employees. Some of these services included the intercampus mail, the game room (complete with pool tables, copiers, and movie rental), the information desk, and the publication of *The Flyer*.

The excitement of plans for a future Union in Johnston Gym stirred up discussion about the vital role of the Union as a place for the campus to truly come together. The widespread support for this project indicated the importance of the Union to the community and offered an enthusiastic glimpse into the future.

chess

In only its third year of existence, the chess team won its second National Small College Chess Championship and placed an impressive 21st overall in the 1995 Pan American Intercollegiate Chess Championships. The tournament included 10 teams from Canada, Peru, and the Dominican Republic, and Davidson finished ahead of such renown schools as MIT, Florida, and Missis-

sippi State. Individually, team captain John Ballard finished with five wins and one draw in six rounds at the Pan American to tie for first place in the nation among all first board players. During the fall, Ballard also won the Davidson Chess Championship and placed second in the state of North Carolina.

ISA

Whether one was a foreign national, dual citizen, permanent resident, or American living abroad, one would be recognized by the college as an international student. ISA membership, however, was not so exclusive. The third year of ISA was the biggest and best, with almost 130 students, a quarter of whom were American citizens. They enjoyed working together not only to promote international awareness on the campus, but also to foster improved relations among all races.

The major events of

the year were the International Festival, the fall retreat in Asheville and many Campus Escape events that provided a get-away from campus on weekends. In the spring, they went to Southport, NC, for an international student conference. ISA also cosponsored the Spring Fiesta.

This year was a crucial one for the ISA since it witnessed the adoption of new by-laws. It was a year of perseverance and challenges, along with lots of fun.

A special thanks to all the enthusiastic members as well as the Davidson community for their support and participation in ISA events.

mpromptu

KAPPA SIGMA

Once again, the brothers of Delta Chapter redefined the meaning of "frat boys." Excelling particularly in social prominence, it is safe to say that Kappa Sigma "accounted for the majority of social activity at Davidson." "We're the masters of the impromptu," proclaimed outgoing president Burt Arrington. "In fact, I can't remember the last weekend we didn't have a soiree." In the words of current president David Wick, "with bad hands and cheap spirits aplenty, we were able to maintain our paramount presence on the Court."

Kappa Sigma also took an active role in community service.

Homeruns for Habitat (all 100 innings of softball) ended with a Casey Hawthorne strikeout, and the 7th annual MADD run to Salisbury and back was a huge success. A pledge/brother auction in February also helped raise money for the new Habitat house. In the fall brothers worked on improving student/teacher relations by hosting a faculty dinner at the house.

By all means the 1995-'96 year was a blast. The beautiful Chris Knox represented the brothers well at Homecoming, fulfilling her role as Kappa Sigma Sweetheart. Producing "the best corn dogs on the Court," Hollis cooked up meals unparalleled in the

world of fine cuisine. Slosson reaffirmed his L.L. status, and Jason Pope woke up time and again with writing on his head. At some point we had some guy named Billy, but his mysterious disappearance was filled by the return of the human funnel, Dan Tedrick. El Jefe reached the pinnacle of journalistic success, but still got rejected by Belly on the basketball court--a feat almost as unbelievable as Belly actually getting a girlfriend. Even the infamous captain returned triumphant. What a year!

Rusk House

Rusk Tailgate Party. Ruskies basking in the sun on the back porch.

by Hannali Wood & Sara Lang

It was a great to be a Ruskie in the 1995-96 school year. Members of Rusk were active in a wide range of activities including the Union Board, the Honor Council and the SGA. Others of us were hall counselors and varsity athletes. Rusk community service chairs organized various activities, including numerous Habitat for Humanity projects and afternoons spent helping the Humane Society.

Destination Unknown was immensely successful this year due to the dedication and hard work of our social chairs. We were surprised to end up at a rodeo followed by a fantastic country/bluegrass band. Policeman's Brawl was held in November for us crazy delinquents. Hopefully, this was the only night we'll ever have to spend in "jail" while wearing semi-formal attire. Christmas Cocktails was also a fun evening- and for many of us, it was our last night to kick back before the semester closed with final exams.

Second semester started off with

Eat Mor Chikin. Tamra Carhart, Chase Keith, Mary Bennett Sharp and Heather McAlpine are utterly adorable.

a bang as returning Ruskies and incoming freshman stormed the house. Self-Selection Night was as wet and wild as ever for Ruskies, as the champagne flowed and the freshmen had their first lessons in the art of beersliding. Rusk also welcomed new cook Laura this semester, who, along with Sherri, stunned the house as Julia Child cook-alikes. February brought Big Sis/Little Sis week, when new Ruskies were treated with various mysterious presents from their unidentified big sisters. The week ended with Big Sis/Little Sis Night, as Ruskies revealed their true identities to the freshmen after an evening of crazy stunts, kisses from Howdie, and some serious bonding. Other traditional highlights of second semester included tailgate parties, Heaven and Hell, Cheeseburger in Paradise, and Longneck Redneck.

Senior formal was held at the Adam's Mark Hotel in Charlotte, and the semester ended with Senior Roast. The 1995-96 school year was a fantastic one for Rusk. Congratulations to our Seniors, who will go down in house history as a class of rockin' Ruskies that will be missed by all.

Bar Hopping Kakkie McEntire, Katie McKelvie, Anne Tilghman McEaddy, Court McBryde and Lucia Plosser know that the basement's a cool place to be.

Elizabeth Anderson, Beth Bacon, Kristen Barteck, Stephanie Baxter, Jen Beebe, Meredith Benke, Meg Bentley, Abigail Bergsma, Jean Boehmler, Liz Boehmler, Chloe Brook, Tall Bruce, Jennifer Bruner, Caroline Bynum, Sally Cobey, Allison Coble, Gretchen Cook, Joanna Davis, Karen Dent, Lexy DeVane, Lisa Dorson, Elizabeth Dubose, Lisa Edwards, Shelley Hiltson, Lauren Ellis, Virginia Fisher, Clair Freeman, Charlotte Gray, Emily Greenstreet, Courtney Hale, Delta Hardin, Kathi Harker, Amy Harris, Sunny Harris, Catherine Hart, Jennifer Hawkins, Josie Hoover, Judith Howell, Katie Ivanoff, Mary Clare Jolomck, Margaret Lawson, Paola Leal, Dayna Lee, Sarah Lindsay, Amy Lindstrom, Liz Lockett, Meredith Lucius, Rebecca Maclean, Elizabeth Manning, Kelly McAlister, Brooke Miller, Debra Mitran, Meagan Mitchell, Janie Moore, Stephanie Morgan, Melissa Moser, Jennifer Neale, Jennifer Neill, Allison Noznesky, Katherine Okey, Lindsay O'Neill, Sallie Permar, Martina Love, Dorothy Peterson, Permar Quackenbush, Heather Raddin, Allison Rhoads, Katherine Ross, Allison Sabel, Kelly Schmidt, Laura Seib, Jennifer Schuetz, Carrie Sloan, Mary Stephens, Kate Stevens, Shannon Stitzel, Sara Straus, Jane Stubbs, Sybil Tate, Sarah Teachworth, Catherine Thompson, Janier Thompson, Rachel Tripi, Lauren Turner, Jennifer Vanlerberghe, Penny Wall, Ashley Weedn, Cassie Williams, Meg Wolff, Marian Woodworth, Heather Young, Laura Barron, Lexi Beerman, Dana Casner, Claire Cheatwood, Sarah Clark, Katherine Cornelius, Molly Crawford, Agatha Degasperri, Erica Fenton, Amanda Fleck, Jennie Geada, Iantriv Gubelmann, Anna Hathaway, Denise Hernandez, Adrienne Jones, Nora Krizer, Whitney Krieb, Rebecca Latamneh, Eugenia Leath, Felicia Leborgne, Dana Lee, Robbie Lee, Kate Lynskey, Clara Marks, Cameron Martin, Ianier McRee, Jessica Montrella, Rives Moore, Moira Nealon, Amy O'Boyle, Kathleen Pattenroth, Yvette Petrella, Cary Phelps, Kate Pritchett, Polly Beth Proctor, Lowell Rayburn, Linda Rothmund, Addie Rowson-Hall, Sarah Rundell, Erin Sabrinsky, Jessalyn Salter, Blythe Sanders, Katie Sanderson, Thuzi Sayers, Lucy Sherman, Luca Smith, Ann Strauser, Lindsay Taylor, Natasha Vasavada, Lauren Wilson

Who's the Lucky Guy? A group of girls surrounded by a lot of the beautiful young men.

Oh What A Night, Kelly McAlister, Allison Rhoads, Allison Squier, Jen Beebe, Julie Faulk, Lindsay O'Neill, Sunny Harris, Clair Freeman, Megan Driscoll, Rebecca Maclean, Katie Ivanoff, Katherine Weeks, Amy Liz Beiz, Joanna Davis and Elizabeth Manning start the night off early with a lock-in at the House.

Stylin'. Pernar Quackenbush, Heather Young, Delia Hardin, Lauren Turner, and Catherine Thompson wage a fashion war against better judgement.

WARNER HALL

Warner Hall lived up to the chant "one for all and all for one" this year. We supported each other through fun, service, and food (thanks to Todd). This year, on Self Selection, we had forty-nine freshmen walk through our doors making the house even better and bigger than it was before. "Oh Yeah."

Service was up and booming this year, many thanks to Liz and Jean. This year we went to the Pines with SAE, put together "shoe box" Christmas presents, recycled, helped with crop lunch, and fed the pigs.

Socially, we were just as active as ever. This year started off with Crush Party, which lead us into Pumpkin Piekin', a Halloween celebration, Oyster "Shuck me if you can" Roast, Bungle in Jungle Semi-Formal, Senior Men's Champagne

Party, Big Sis/Lil' Sis night, Patio Party and Spring Formal.

Whether it is a lacrosse stick, field hockey stick, or tennis racket you're looking for, whether it is a ball you kick, spike, or dunk; or if you are looking for those who love the water, Warner Hall is the place. If you're looking for a Rhodes Scholar, we've got one. Hall counselors and Resident Advisors? Those too. Members who are involved with the *Davidsonian*, *Quips & Cranks*, and tour guiding? We're packed with 'em. Warner Hall is a house filled with diversity and enthusiasm for that diversity.

The 1995-96 year is one to remember for all members of Warner Hall, and as Merf McCullough said in 1994, "We were back and as strong as ever."

.....
Don't Shoot. Mike TV, Willy Wonka and Violette Beauregard (aka Jen Neale, Jen Shuetz, and Meg Bentley) search for the golden ticket.

Executive Council. Amidst the changing nature of the Court, the officers of Warner Hall rocked on.

Cheers. Marlan Woods,orth, Sybil Tate, and Katherine Okey do some quality bonding at a house lock-in before the party starts up.

CONNOR HOUSE

by Kate Evans & Michele Carroll

As the newest house on Patterson Court, Connor celebrated its fifth year. The year began with a bang with the annual housewarming party. We celebrated Germany's Oktoberfest and went back in time to the Roaring Twenties for semi-formal. Our parents even got in on the fun for afternoon cocktails on Parents Weekend. Connor women shagged to beach music with the Entertainers at our first Crush party and celebrated the Christmas season with blues band The Noble Coyotes. Second semester began with champagne showers and beer slides on Self-Selection night as Connor welcomed its new Court Jesters. At our most infamous date function, Screw Your Sister, Connor House was transformed into a Las Vegas casino. For those who remember formal at the Hilton in Charlotte, it was an all day/all night affair. The Jesters wrapped

up the year by celebrating the Mexican New Year with Cinco de Mayo.

When we are not having parties the Connor Jesters can be found hanging out at Connor or volunteering their time with various service projects. The addition of new furniture and an air hockey table made Connor a popular hangout. Connor women donated left over food, visited the recycling shed, organized a Halloween carnival, and organized Fun Run. Connor women boasted the largest number of Christmas presents for Operation Christmas Child.

Connor would not be the same without the support of its two token males, our chef Larry Howard and the Connor Knight, J.D. DuPuy. But it is the diversity of the women in Connor that makes it a special place.

•••••
Jovial Jesters. Jenny Noller, Jacki Rasulo and Katie Palmer caught the spirit of the Roaring 20s.

SIGMA ALPHA EPSILON

by Craig Murphy

The true gentlemen of Sigma Alpha Epsilon wrap up another year on the Court, despite some rather unfortunate hard times in the Fall. The Hod House overcame the conditions of a dry Rush by putting together the Court's strongest, most tightly-knit pledge class.

SAE demonstrated its strong support of community and campus life through numerous projects and fund raisers. The 6th annual "Canned-Food Party" provided meals for the needy around Thanksgiving and Christmas. We sponsored the annual "Fun Run" during Greek Week

to benefit Easter Seals. This year the house was only able to put on one Bike-a-Thon in the Fall, but it was a huge success raising money for the Bone Marrow Drive. During Alcohol Awareness Week, SAE provided a campus wide video presentation on the effects of abusing alcohol. Furthermore, many SAEs frequented the Pines to bless the elderly with their polished singing voices. Numerous hours were spent sorting clothes in Charlotte's Down Town Shelter. At the Phonathon, SAE raised just under \$10,000. Our largest project was the Charity Calendar, in which over \$5,000 was raised bringing our total contri-

bution to \$65,000. The funds are given to Little Library to purchase over 100 books every year.

The spirit of Minerva was present during our numerous blowout bashes. Although a bit restricted in the Fall, the Hods rebounded with huge campus-wide turnouts at Tacky Party and "Big Stoner Creek." For Midwinter's and Spring Frolics, we held the infamous "Around the World" parties, Casino Party was a huge success in addition to the acoustic jams of "Sutton Hyder and Co." The capstone was a phenomenal performance by Black Mountain Music Award Winner, "MaGraw Gap." In frequenting the Korner Pub,

Rainbow Deli and Backstreet, the brothers exploited the immense off-campus night life.

Fellowship and brotherhood overcame the administration's stipulations of the Fall allowing SAE to maintain its preeminent position on campus by success in athletics, strong community support, and by providing the best social scene. We thank Stephen Lilly, James H. Tayberry, and Angus Sprunt for their support throughout the year. Phi Alpha.

Cool Shades. Kevin Boler and Thomas Greene get warmed up for Tacky Party with the Harry Buffalo.

Stayin' Alive. Hugh McDaniel, Zeke Hendrix, and Ben Schlaeffer go retro in full force.

Beta chapter will fight on to provide a model for community service and the ideal man for years to come.

Pi Kappa Alpha

by A PIKA

PiKA's Beta Chapter once again proved to be the class of all fraternities and the icon to which others compared themselves. For the 32nd consecutive year, we fulfilled Dean Terry's adage that "those crazy Pikes are chiefs among indians."

Our parties, ranging from 70s to Glam Rock to the widest and best selection of live music on campus, immensely boosted the college's social activities. We are proud to be the only house which can claim zero broken windows and zero police run-

ins during social functions, not to mention our endless supply of quality American malt beverages.

Our brothers traveled the world over--from France to New Zealand to Florida--in search of the qualities which would improve our standing as the most complete and socially acceptable collection of males ever. In addition, we invited into our legendary halls a group of freshman sure of their way--and their place--in today's society.

Members re-established PiKA's standing as the brightest students Davidson has to offer following a

brief, one-year lapse. Just three of our 57 brothers failed to reach that magical threshold of the 3.9 GPA, and PiKAs could be found gracing leadership positions across campus.

Despite intense efforts to repress us, we will not let up. Beta chapter will fight on to provide a model for community service and the ideal man for years to come. As Thews so easily demonstrated, PiKA once again has embodied to the very last detail Da Frat.

AKA Party These "parties" revel in the spirit of fun
 and brotherhood of the Kappa Alpha Order.

From Beast to JAGER! Jay Shultz, Chris Harrison, Howdie
 Cronley, and Dave Thompson aren't messing around.

YEE HAW! A couple of folks from the "Cowboy
 Row" are...

Yippy Yi Yea. Howdie Cronley and Alex Deegan suddenly
 found themselves hanging in mid-air.

Kappa Alpha Brotherhood. Johnny Frierson and Howdie Cooley took a little time out to "head for the mountains."

KAPPA ALPHA

The 1995-96 school year saw KA brothers continuing their active involvement in a wide variety of campus activities such as student government, Honor Council, Varsity athletics, Hall Counseling, and community service projects. Most notably, the 2nd Annual Spring KArnival provided an afternoon of free entertainment for children in the community. Proceeds from the KArnival benefitted the Muscular Dystrophy Association, the National Philanthropy of Kappa Alpha Order.

KA-sponsored social activities thrived throughout the year to provide a

place for brothers to unwind in the company of good friends. Annual favorites included Homecoming, Hurricane Hugo, Midwinters, and Barn Dance. We wish the best of luck to the graduating seniors and look forward to another successful Fall rush...even without the Key.

Dressed Up and Nowhere to Go. Trevor Theme, Bryan Haltom, Josh Gatlga, Nathan Raley and their dates hangin' out on the hall before a date function

by Ben DeLisa

How could this year have gone wrong having won the Buchanan Cup, the highest possible award offered by the national chapter. The success continued throughout the year as Sig Ep went on to win five more national awards. The most prestigious of these being the Winner's Circle, which identifies North Carolina Epsilon as the top chapter among the 39 chapters in the Southern Region.

Awards are great and all, but they are only one indication of the strength of the brotherhood. Sig Ep continued to dominate campus athletics with a landslide victory in the first annual Lunar Luau Chariot Race. IMAC teams such as Captain Phat and Dead-Eye, whether they won or lost, had the most fun of any team.

In more formal areas Sig Ep placed five brothers on the CCRL, had five serving as RAS, and had many volunteering in the Davidson community and the greater Charlotte area. Having had another successful rush year, Sig Ep promises to continue their tradition of excellence in the future. And the food is STILL the best on campus!

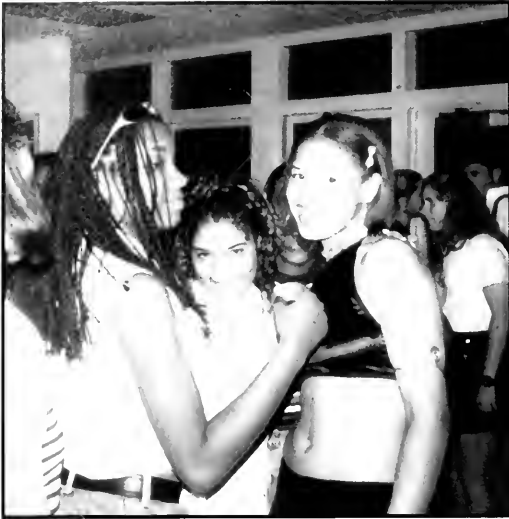

Some Stylin' Sig Eps. Alex Fernandez-Tatum and Alfredo Urbinham up for the camera in their formal attire.

Let's Hear it For the Boys. Brothers of Sig Ep certainly clean up nicely

Black Student Coalition

By Wes Hart

As a fitting end to a successful year, the Black Student Coalition held a special meeting to reaffirm its position as an important organization for enrichment in the Davidson Community. The most significant outcome of this event was a restatement of the BSC's purpose, which included, among other items, educating everyone about the experiences and cultures of the African Diaspora, and serving the community. Through hard work and creativity, the BSC sponsored many events and programs that held true to its purpose. The forum on the Million Man March offered many the opportunity to discuss and learn more about a very historical and meaningful event. The first annual Umoja Festival allowing every desiring individual to become part of the African-American experience. African -American poetry readings helped to enhance cultural

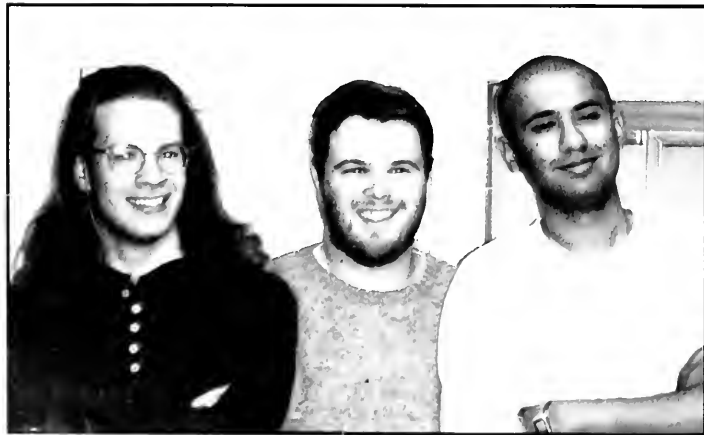

awareness. The BSC consistently held various activities with children at the Ada Jenkins center, including weekly "enrichment days." The annual Valentine's Day fundraiser produced a substantial amount for needy children in Charlotte. The reggae band added some variety to the Patterson Court social scene. BSC parties, to no surprise, jammed! Along with the several staff members, the BSC also participated in a letter-writing campaign to prospective freshmen. This effort contributed to a larger incoming class of African-American freshmen, which still, unfortunately is not enough. Overall, the Black Student Coalition was very successful in helping to diversify and enrich Davidson College and the community. With even loftier goals for the forthcoming year, the BSC plans to have even more fulfilling and positive results.

Wilmington Get A Grip. Saad Guhl took a trek to Charlotte to hook up with some hooters.

Phi Gamma Delta

Phi Gamma Delta came strong again in 1995-1996. The Delta Kappa chapter topped the year by slapping a fresh coat of paint on their house, just in time for the Strawberry Fields festivities. The mystery beverage fest, South of the Border, and other parties gave Davidson students a means of escaping the college and the Court for a semester, Figi's Rave second semester set the standard for what Davidson parties could be. As students danced and collided in a sea of smoke and bass. Those who came begged for a sequel. Also, the yearly Figi Islander brought the band Evan McNary to the house for yet another successful party. Brothers and pledges also enjoyed successful Homecoming, Midwinters, and Spring Frolics semifinals, as well as other smaller date functions.

Academically, Phi Gamma Delta set the standard with the highest men's GPA. Service projects included Habitat for Humanity, Potato lifting for food banks, and beef and green gleaning, also for area food banks. Brothers and pledges escape the college for a top-of-the-year retreat, initiation in Lexington, Kentucky, and a senior roast high in the slopes of Roan Mountain, North Carolina. Elected in the fall, the Phi Gamma Cabinet consisted of president, Ben Hill, treasurer Hiren Patel, recording secretary Josh Buchanan, corresponding secretary Kris Kallenberger, and historian Eric Borgstrom.

Too Sexy For Their Shirts. Trip Nelson, Brian
Kiching, Miha Ingram, Dave Christopherson and
Daxson Gramade sure are some sexy men.

PHI DELTA THETA

by Brandon Davis

The Phi Delta Theta Fraternity had one of its most successful years in recent history with the induction of 30 new members. These new pledges joined the ranks of many Phi Delta Theta brothers that are proven leaders in various school activities. Such distinguished Phi Deltas included the PCC President, PCC Chancellor, SGA President, and various other positions. Academic awards given to Phi Deltas also include the William G. McGavock Mathematics Award, the William Gatewood Workman Psychology Award, the Dean Rusk Program Award, the Army Superior Cadet Award, and a Phi Beta Delta honoree. Phi Delta Theta also boasts a large number of student-athletes including the captains of the varsity baseball, football, tennis, and wrestling teams.

The North Carolina Gamma chapter

of Phi Delta Theta also hosted many successful campus parties this year, such as Homecoming, Midwinters, Spring Frolics, and Ladies Night. The 17th Annual Phi Delta Theta AIRBAND was also a hit, with seniors Brian Cole, Rhett Ingerick, and Sean Harvey winning this year's honor.

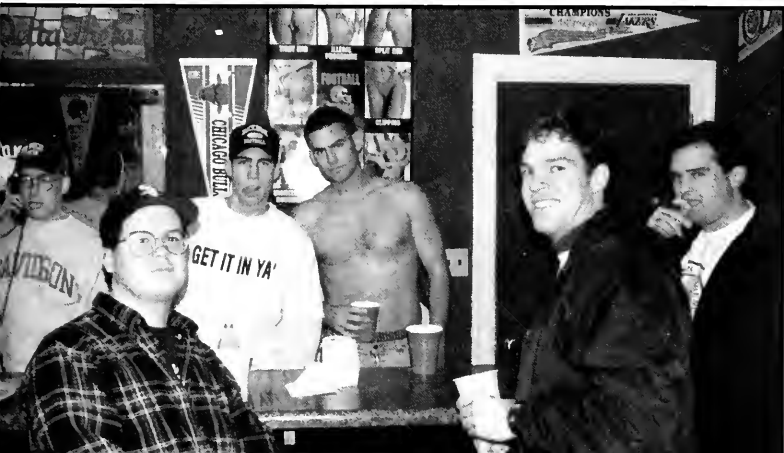

Despite AIRBAND consistently being one of the campus' largest parties, it was clearly Phi Delt's Toga Party that took the honor of being the largest yet. On September 30th, Phi Delta Theta hosted the ever-famous college band *Otis Day and the Knights*. From a stage located just outside of the house, Otis Day dazzled the large Davidson College crowd with his famous songs: *Shout*, *Sham-a-lam-a-ding-dong*, and several others. Senior Mark Wittschen, coordinating the event, was happy to see that the performance was able to unite the students as well as the faculty for an enjoyable evening.

The brothers of Phi Delta Theta plan

to continue their success in academics, student government, community service, and athletics for many years to come. Brothers: J. Andrews, B. Krehmeyer, B. Cole, S. Shames, S. Tillman, C. Pollard, H. O'Brien, J. Cassidy, D. Christopherson, B. Pussler, M. Rogerson, W. Elliott, T. Hagen, M. Wittehen, S. Tomdandel, S. Harvey, R. Onkey, B. Bailey, M. Cary, R. Ingerick, David Alexander, Jason Allen, J.C. Sports

Football

The Davidson Men's Football had a disappointing 1995 campaign, but they are anticipating the 1996 campaign with a hopeful outlook. The Wildcat's 1-8-1 '95 season marked the end of the stellar careers of senior captains James Cassidy, Bo Bartholomew and Will Robinson.

Coach Tim Landis is hoping that with a strong conditioning off season and strong recruiting class that next season will be more successful. Senior Will Robinson also has high hopes for the future of the team. "they have a lot of talent here, more talent than they've ever had, and the best coaching staff I've ever been around. And with that kind of combination, I wish I could be here for a couple more years."

- Tom Ting

Getting ready, Tom Dye sets up in pocket at the March 11th game.

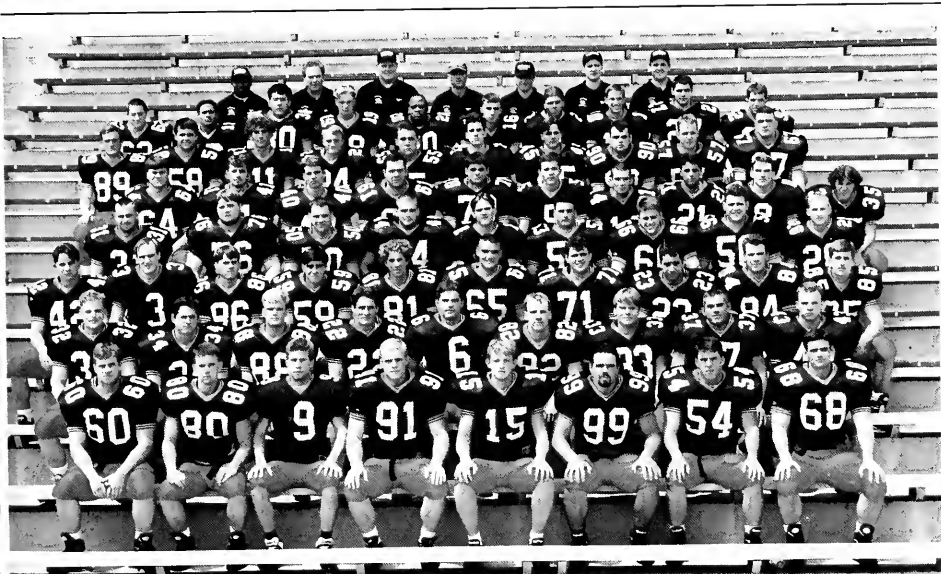

Hustle, Chris Hill and Jake Graham combine to stop a scoring play.

Unstoppable. Tom Dugan cuts up the field on his way to positive yardage.

Ready to win. The Wildcats prepare to take on the Tigers of Sewanee

Winding up. Kelly Ammann takes the corner kick.

Southern Conference Champs Women's Soccer

The Wildeat women's soccer team ended their 1995 season with a record of 11-9-2 overall and 5-2-1 in the conference. For the second year in a row, the defending champion Cats took home the Southern Conference Tournament trophy with an outstanding performance in the end-of-season tournament held this year at Davidson. During the regular season, the Cats upset such regionally ranked teams as #7 University of Central Florida and #10 Wake Forest University. They also recorded narrow losses to nationally ranked #14 Clemson (1-0) and #17 N.C. State (2-0). Team members Claudia Lombard, Shannon Lowrance, and Kelly Ammann were named to the All Southern Confer-

ence team while Lombard was also selected to play in the Umbro Select College All-Star Classic and named the team MVP for the season. The team most-improved player award went to goalkeeper Allison Noznesky. Unfortunately for the Cats, this year marks the last year for three outstanding seniors, Heather Wineberg, Lowrance, and Lombard, who over the years have contributed great talent, strength, and leadership to Davidson's women soccer. With a rocky beginning to the season, and an injury-plagued remainder of the season, the 1995 Wildeat women's soccer team went out with a bang and looks forward to another great season next year.

Men's Soccer

The Davidson men's soccer team had an up and down 1995 campaign. Prior to the season beginning, many believed that the Wildcats could obtain an at-large NCAA tournament bid, but those hopes faded after a somewhat disappointing 9-10-1 regular season record made an at-large bid unlikely. The Wildcats rebounded, however, by winning the Southern Conference Tournament and gaining the opportunity to participate in a play-in game against Bowling Green. The team's season ended with a 3-1 loss in Bowling Green, Ohio.

The season also had many highlights. The

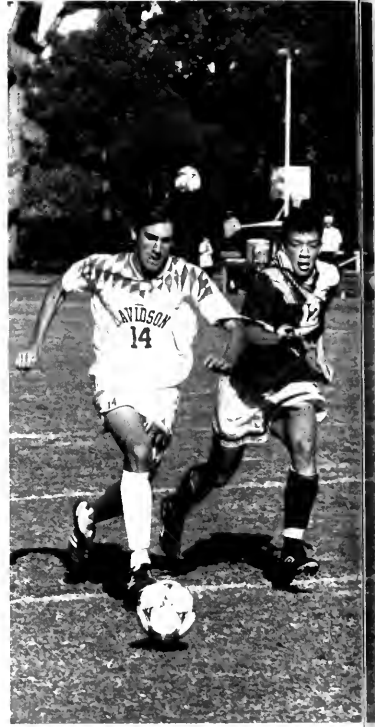

Wildcats had a 5-1 conference record in addition to winning the conference tournament against Furman on a Robert Clarke goal. The team had a close 2-1 loss to then No. 3 ranked Duke and posted a 3-1 victory over Wake Forest the first time Davidson had defeated an ACC team by more than one goal since 1964.

Keep performers on the 1995 squad were striker Robert Clarke, forward Keith Kleeman, forward Phil Julien, defender Isaac Stewart, Ian O'Brien, and goalie Alex Deegan. The team was coached by Charlie Slagle.

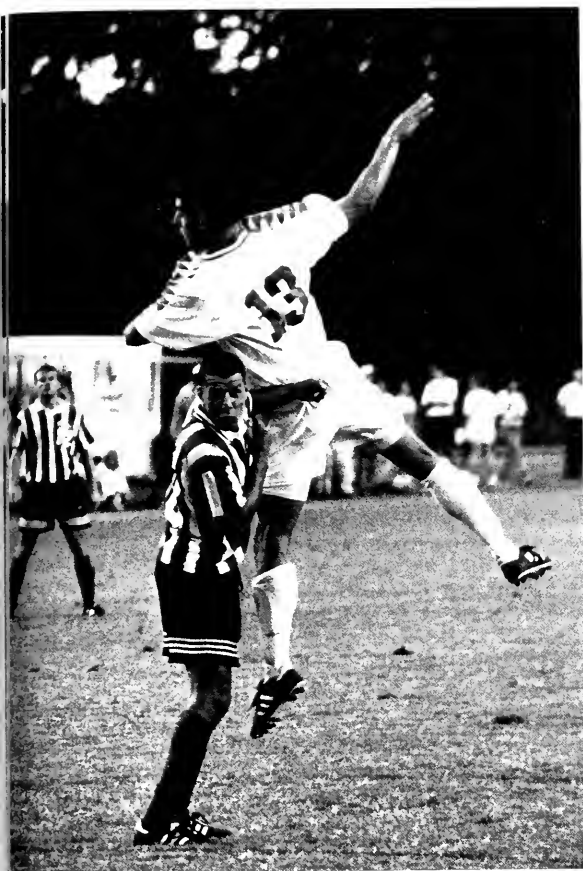

Yu-jay Harris

Looking to the Future

Bonding. The happy huddle.

Volleyball

The Davidson volleyball team finished the season with an 8-24 record. Unfortunately, the record does not reflect the effort and improvement of the team. Much of the improvement can be attributed to the friendships between the members of the team as well as with the coaches.

Michele Augustin, the senior leader, will be greatly missed. The new Assistant Coach, Chris Willis, did an outstanding job during his first season. Head Coach Lisa Radford is looking forward to a success-

ful season with returning players Ami Bondurant, Lois Ann Baumgartner, Cindy Seegers, Paola Leal, Amy Bourgeois, Janet Duncan, Emily Willeford, Sarah Covell, and Jamilah Sawyer.

The best home match this season against Campbell University proved to be an exciting one in which the Wildcats came back from behind to win with a final score of 3-2

Field Hockey

The Wildcat field hockey team enjoyed a victorious fall season. Although their 10-7 record boasts a majority of wins, the greater victory emerged with teamwork and experience as the season approached its climatic end. The team finished strong stealing the sixth consecutive Deep South title.

The Cats were faced with their toughest competition early on battling power houses such as Duke, Wake Forest, and UVA. With the loss of five seniors in 1994, the team struggled to find their identity with such a young team. Injuries and other setbacks left vacant positions and little depth to compensate.

Coach Betsy Pryor reflects, "We

certainly got off to a rocky start. The season was about learning to blend together as a team. Once we put our differences aside and worked for the common goal, we started playing real hockey and winning games."

Under the outstanding leadership of the two seniors and Co-Captains Nicole Fieeto and Holly Kledis, the Cats defeated Louisville, Appalachian State, and even University of Richmond and VCU on turf.

After a successful Deep South Tournament, the Cats went on to win their last eight out of ten games, proving the remarkable improvement and pointing to a promising 1996 season.

Score. Nicole Fieeto, Heather McAlpine, Teresa Alden, Chase Keith, and Erin Smith celebrate a goal.

Agility. Polly Beth Proctor receives the ball on the sideline

Wrestling

The Varsity Wrestling team overcame a season plagued by injuries to finish the year with a strong placing in the Southern Conference Tournament. Head Coach Tom Oddo summarized the season by saying, "We had a lot of set backs this year, but we had a fabulous finish to the season. We outperformed any Davidson wrestling team in recent history."

During the regular season, sophomore Ben Wall finished the year with twenty victories and led the team in pins with nine. Wall and senior Miller Cary both won the Pensacola Christian Tournament. Christian Baker, the only freshman on the team, finished the year with a 13-13 record after a strong showing in the conference tournament.

Davidson's twenty total team points in the Southern Conference

Tournament in Greensboro, N.C. was the most a Davidson wrestling team has scored in 26 years. Christian Baker won an overtime match to lead the team to a third place finish. Six other Davidson wrestlers — George Escaravage, Miller Cary, Jake Hamilton, Ben Wall, Bill Cameron, and Chip Stewart — placed fourth in the tournament, helping the team to place fifth in the final team standings.

"Next year, with most of the guys returning following a good recruiting year, we should have a more balanced and consistent roster," said Coach Oddo, "we don't have any superstars, but we don't have many weak spots either. I expect to take another step up the Southern Conference ladder."

Waves of success

Swim & Dive

The Davidson men and women swimming and diving teams again made great strides in building an improving program during the 1995-1996 campaign. Head Coach Rich DeSelm, Assistants Sam Jallet, Ted Hantam, William Robert and volunteer coach Ken Vogt continued their attempt to lead the Wildcats to success.

Although their dual meet record was 1-9-1, the women, led by senior co-captains Katharine Welling and diver Meg Bentley, finished strong by scoring more points than in the previous years' meet and placed fourth as a team at the Southern States Swimming & Diving Championships. This season the women again assaulted the school record books, with freshman Kathleen Pattenroth breaking marks in the 500, 1000, 1650 free & 200 fly. Katharine Welling and freshman Allison Hobgood set and reset records in the 100 & 200 backstrokes, with Hobgood finishing the season with the fastest times and school records in each. Diver Meg Bentley capped off her career with a new record in the 3 meter contest. New team relay records were established in the 200 Medley and Free relays. Representing Davidson for the first time at the National Independent Championships were Welling, Hobgood, Pattenroth plus Allison Beebe and Lynsay Madley. These five helped Davidson finish sixth at the NIC's.

After a dual meet record of 3-8 with wins over College of Charleston, Richmond and Emory, the men geared up to defend their 1995 Southern States team title, despite losing several key individuals from the previous years' team. Swimming and diving about as well as a team could, their third place was well-deserved. Senior and tri-captain Churchill Hootf lead the team all season and at Southern States. His individual titles in the 500 & 1650 freestyles sparked a spectacular team performance. Those setting new Davidson records over the course of the season were Mike Rogerson, who broke a 17 year old record in the 50 freestyle, Michael McCabe in the 100 freestyle, Hootf in the 200, 500 & 1650 freestyles, tri-captain Corey Bean in the 200 butterfly. In addition, the 200 & 800 freestyle relay marks were lowered. Seven men (Rick Clay, Hootf, David Maddux, McCabe, Jason Prince, Jay Rosenquest and Freddy Schnell) also attended NIC's and placed eighth.

Finalists in the Southern Conference Tournament **Men's Basketball**

When the pluses and minuses are all weighed, the Davidson College's 1995-96 basketball season should be remembered more for the accomplishments and excellence than the Wildcat's 100-73 loss to South Carolina at Columbia in the first round of the National Invitational Tournament.

It was a stunning end to an otherwise outstanding season for the Wildcats, who finished 25-5 overall—second highest win total in school history—and went 14-0 in the Southern Conference regular season race, winning league's North Division championship.

"It was a magical year filled with memories and accomplishments that everyone associated with the program will remember proudly," said Coach Bob McKillop. "Despite the season-ending and not getting an NCAA bid, we won 25 games, had a 19-game win streak and went undefeated in conference play. These are hallmarks of excellence this team demonstrated consistently throughout the year. It was encouraging to see the way the Davidson community embraced these players. We are proud that our players earned this affection by what they did on the court and did in the community."

Five experienced seniors — forward Brandon Williams, forward Quinn Harwood, guard Chris Alpert, guard Jeff Anderson, and center Mark McGuire — blended effectively with solid underclass standouts to form one of the most dominant teams in recent Southern Conference history, building a reputation for defensive excellence.

During most of the year, the Cats led the Southern Conference in field goal percentage, defense (.422) and scoring defense (68.2) while averaging 12 steals and forcing an average of 22 turnovers. They were among the nation's top 10 in scoring (84.3) and scoring margin (16.1).

"A lot of our success would be attributed to the seniors. Their experience and leadership were keys. They helped keep us focused," said McKillop. "But we also needed our depth and flexibility to establish our style of defense. This was the first year we've had the numbers to do that."

The success was enough for McKillop to earn Southern Conference Coach of the Year honors from both the Southern Conference Sports Media Association and the coaches in the conference.

Williams and Harwood both crossed the 1,000 point level in career scoring. Williams finished his career with 1,505 points — ninth on the Cats' all-time list — and Harwood finished with 1,027 for 29th place all-time. Point guard Chris Alpert finished as the Cats' all-time assist leader with 542 and second in career steals with 174.

Williams was named to the Southern Conference all-conference team for the second time in three years. Harwood was a member of the all-league team as well. Alpert earned a spot on the Media Association all-conference team. Williams and Harwood also were named to the Southern Conference all-tournament team.

Although the 25 wins will probably be one this year's seniors most enduring achievements, they will also be remembered for having won more games than any other class in college history. Williams, Harwood, Alpert, McGuire, and Anderson won 75 games and never had a losing season.

Where do the Cats go from here?

"We've got a lot of holes to fill," McKillop said. "We lost a lot of experience, heart and production. But we've got some experienced players returning, notably Ray Minlend, Narcisse Ewodo and Mark Donnelly. Ali Ton, Chadd Holmes, David Burns, and Ben Ebong add significantly to that core."

— Sports Information Office

Power: Jamie Brown drives toward the basket.

Women's Basketball

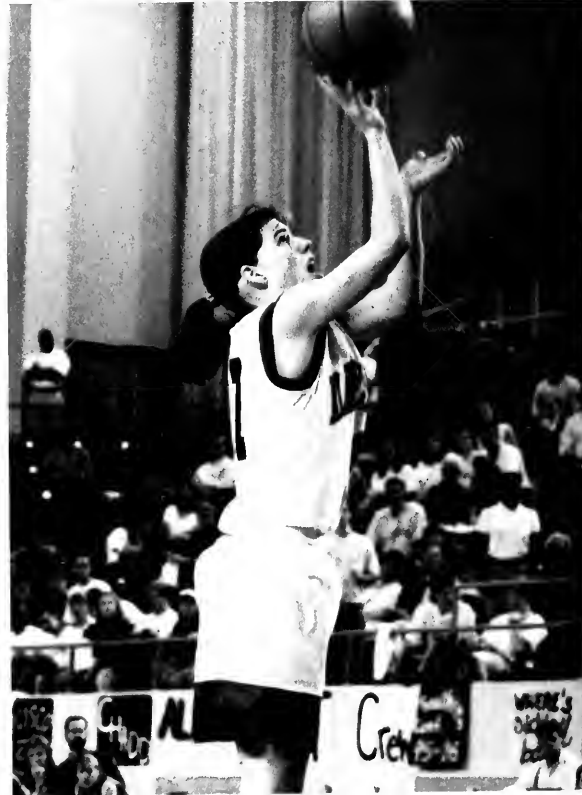

The Davidson Women's Basketball team ended its most successful season with a loss to Appalachian State in the semi-finals of the Southern Conference Tournament held in Greensboro, N.C. From the beginning of the season the Cats had one goal: N.B.G. (Nothing But Greensboro). They took the first step in achieving this goal with their first conference win ever against Western Carolina early in the season. They finished tied for third place in the conference with the most successful record in Davidson's women's basketball history: 14 and 12.

Coach Filar says, "This season was one of success and growth. We committed ourselves to a goal (N.B.G.) and our entire team remained focused on achieving it."

The seniors Molly Burke, Kristen Ferrucci, Tonya Sharpe, and Magic Young have provided outstanding leadership and dedication which has been the foundation for the Wildcats' achievements. The Wildcats have made their mark in the Southern Conference this season and they believe it is just the beginning of a new level of play.

— Jessica Montrella

Planning: The team discusses the strategy for their next play. Skill: Monica Winter takes a shot.

Speed: Carolyn Kirsch brings the ball up the floor.

Concentration: Jennie Vanlerbergh shoots a free throw.

Golf

The class of 1999 brought in several starting freshmen for the golf team. The fall season allowed freshmen David Alexander, Cabell Fisher, Conner Eldridge, and Alby Toto to experience NCAA competition for the first time. Cabell Fisher turned in a great score of 70 which helped the fall squad to break 300. As a result of this milestone, Coach Joe Mark shaved his head. Senior captains Aubrey Proud and Bill Hyder provided sound leadership for the new members of the team.

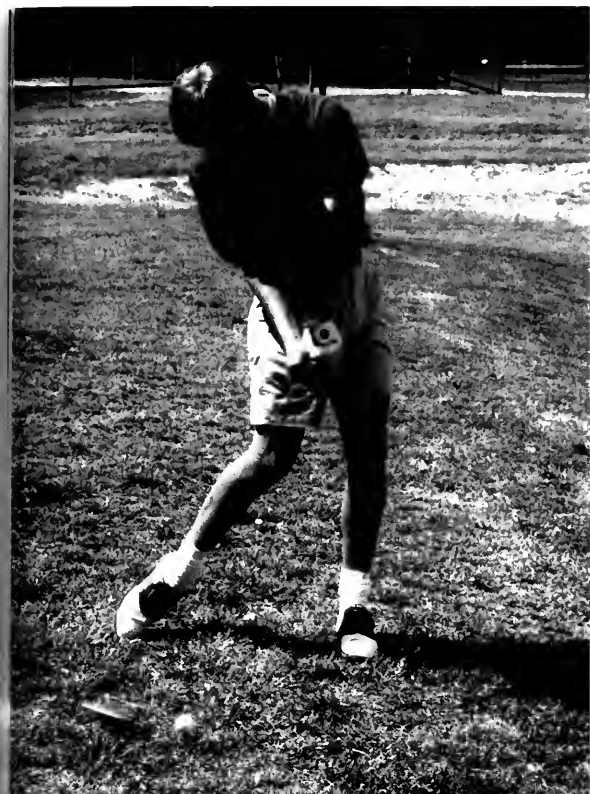

During the spring season, the return of juniors Daniel Tedrick and Jason Carlock coupled with strong play from sophomores Andy McDaniel and Jason Lina helped the team to move up four places in the Southern Conference to end in a tie for fifth. The team hopes to improve this standing even more next season since the top six members of the team are returning.

Although four out of the top six players on the women's tennis team were freshmen, the Wildcats proved themselves by having an outstanding season. The Wildcats were led by Dana Casner (#1 singles, #1 doubles), Junior Ashley Manor (#3 singles, #1 doubles), freshman Clara Marks (#4 singles, #2 doubles), and senior Jane Stubbs (#3 doubles).

The team fought to place a close third in the regular season. In the Southern Conference tournament, they finished behind their rival, Furman, who barely beat the Cats (5-4) in the regular season dual match. At the start of the spring season, the Wildcats finished a strong second behind West Virginia, the best finish

Ready for Wimbledon. Amber Bradford serves up an ace in her Wimbledon Whites.

Women's Tennis

.....

ever, in the Annual Davidson Doubles Invitational. Also, the Cats had remarkable defeats over nationally ranked James Madison and Temple during its spring break trip to Orlando, Florida. The season ended with a strong Conference tournament, especially for freshman Claire Cheatwood, who won her flight at the #6 singles position and Ashley Manor, who reached the finals in her #3 flight.

by Clara Marks

Although the Cats will hate to lose the only senior, captain Jane Stubbs, because of her talent and leadership, they look forward to the great potential for next season with so much talent returning.

Team Members: Amber Bradford, Kerry Brophy, Dana Casner, Creecy Chandler, Claire Cheatwood, Lindsay Cohen, Charlotte Gray, Nicole Homan, Kirstyn Leumer, Ashley Maner, Clara Marks, Debra Mitan, Jane Stubbs, Thirza Sayers, Charlotte Seigler, Lynne Shore and Catherine Whitmore

Lacrosse

With a new head coach and assistant coach, the women's lacrosse team tremendously improved. In comparison to last year's 3-7 record, the Wildcats ended with a record of 6-8. With no seniors, tri-captains Allison Rhoads, Rebecca MacLean, and Sarah Hogan led the team. Sarah Hogan and freshman Amanda Fleck controlled the attack while Allison Rhoads and freshman Tab Combs anchored the defense. The team hopes that the improvements made are the first of many. This is highly possible since all players are returning and a strong recruiting class will be added.

— Linda Rothemund

Reach for it. Sarah Hogan makes a long pass to a teammate

Hustle. Amanda Fleck asks for the ball

Spirit! Spirit! Spirit! A group of cheerleaders from The Spirit League points paw prints in honor of the school's mascot, the cougar. Cheerleaders say cheese during the all-school photo. name an 'S'. C. ... me. The dance team ... of the Wildcat perform a spirit skit at the fall pep rally.

A spirit like no other

Spirit Team

1995-96 proved to be an exciting year for Davidson's Spirit Team which includes the cheerleading squad, the dance team, and the mascots. With a record number of people, they began the year by attending camp for the first time in years in the August heat in Myrtle Beach, South Carolina. Given the motivation and know-how to show incredible improvement for this year's football and basketball seasons, the Spirit Team started off with a bang. Cheerleaders, dance team members, and the Wildcat and Miss Kitty were found all over campus helping with freshman orientation, move-in, supporting all fall sports athletic events, sponsoring the fall pep rally, and, of course, cheering at weekly football games (rain or shine)!

This year's exciting basketball season provided even more to cheer about as the Spirit Team equipped Davidson fans with pompoms, spirit signs, and T-shirts throughout the entire basketball season not only here at Davidson, but also at various away sites. Led by advisor Jeanette Scire, the Spirit Team made a record comeback this year in terms of skill and ability to promote crowd involvement. Many thanks to all the loyal fans who helped to make this possible! Can't wait to see you next year!

SAILING

.....

Crew Club

The crew club made history this year with their entry into the world of competitive rowing. The Wildcats started their inaugural season with a scrimmage against the Catawba Yacht Club based on Lake Wylie. Racing with the highly experienced Catawba rowers showed the club where they needed improvement as well as provided a taste of the regattas to follow. A week later the team traveled to Clemson, SC for the Clemson Sprints Regatta. Although the men's and women's fours finished in the bottom of the novice heats, a victory had been achieved by entering the regatta itself. Ten years after the club decided to switch from a recreational to a competitive focus, Davidson had competed in nationally recognized regatta.

The Wildcats finished their pioneering season with two trips to the regattas of the Capitol Classic Regatta in Washington, DC. As parents, stu-

dents, and alumni cheered from the banks of the Potomac River, Davidson's fours rowed their best races to date in the men's and women's varsity four events. Each boat's second place finish earned them a spot in the finals. Both crews rounded out the day with fourth place finishes in the four boat final events. The women were clocked in 8:54.62 compared to their 10:41.3 finish at Clemson. The men crossed the 2000 meter mark in 7:46.24, a two minute improvement over their 9:48.9 Clemson finish.

Two years ago a place on the starting line was no more than a lofty goal, and the club measured success by how far they rowed from the boathouse during practice. Now with two regattas behind them, the Wildcats look forward to bringing home their first victory.

Crew Club: First row: Allison Moore, Ellen Rockwell, Catherine O'Dell, Kelly Westbrook, Jenny Noller. Second Row: Coach Jay Hinton, Josh Peklo, John Hong, Dave Jackson, Derrick Miller, Doug Penhallegon. Not Pictured: Agatha Degasperri, Ouida Arnall, Matthew Nixon.

Rugby Club

Members: Front Row: Matt Burkhardt, Dave Derrick, Scott Burkhardt, Jason Cody, Jeremy Potter, Bob Yarborough, Mike Lassiter, John Spanhour, Keith Davis, Jason Allen, Eric Borgstrom. Second Row: Coach Paul Kenney, Frank Killian, Hank Ackerman, Chris Williams, Thayer Long, Will Baldwin, Will Bradshaw, Graham Powell, Warren Buford, Scott Young, Coach Blaine Segal. Not Pictured: Seth Carpenter, Jonathan Sipling, Mike Ingram, Roger Mills, Sean Harvey, Davey Bacon.

This year's rugby club had one of its best seasons ever. With the help of two new coaches, Blaine Segal and Paul Kenney, the Wildcat ruggers toppled two of the top teams in Virginia and North Carolina. Posting victories against Radford and Chapel Hill were not the only highlights of the season, though, as the team proved strong in all of its outings. With a host of returning players in the backline and the scrum, the Davidson rugby club promises to be a top contender for the North Carolina championship in the fall of 1996.

Dear Martina,
From your first graduation to your last,
we have always been proud of you.

We admire your determination to
overcome difficult situations and your
wonderful ways of making friends.
Whatever path you choose in life--
we know you will succeed.

We love you, Mom and Dad

Dear Martina,

What can I say, you actually made
it! After knowing you for eighteen years, I
pretty much knew you could do it. You
have been a great sister, a person to talk to,
to laugh and cry with, but most importantly
my best friend.

You have put up with me and I
thank you. I will never stop looking up to
you and asking for advice, and I will never
stop being your sister. I love you with all
my heart, and I wish you all the luck in the
world.

Friends may come and go, but
sisters are forever.

Love, Camilla (Eggy)

Abortion Hurts!

After 2 decades of legal abortion, there has been a side effect that was not totally expected or told to woman considering this option: PAIN. PAIN from the abortion procedure itself. PAIN from recurring nightmares, depression, and, in some cases, thoughts of suicide. PAIN from the loss of a child. PAIN from learning that it may be impossible to have another child. And PAIN from discovering that researchers have now found a link between abortion and breast cancer.

There is help for this pain. And there is an effort underway to prevent other women from experiencing it. **If you would like more information about abortion, post abortion healing, preventive education, or how to get involved in the movement to protect women's lives, please call us today.**

There are alternatives.

EDITOR'S PAGE

Well, here it is...another long-awaited edition of the *Quips and Cranks*. Even with three editors (probably a first for Davidson) we experienced the usual moments of agony that accompany such a task, but soon our efforts will be replaced with the reward of the finished product. In fact, we loved working on this yearbook so much that we (excluding Lida, who graduated last spring) have decided to do it again next year. As the first editors in the history of the Davidson College *Quips and Cranks* to edit two books in a row, we commend all of our predecessors who took on the responsibility single-handedly and unaware of what the job really entailed.

In the past year, we learned from our own mistakes and came to realize that procrastination really is a thief of time (especially during our five day marathon in the middle of July). We dream about PageMaker at night, we know the correct spelling of just about every Davidson student's name, and we are experts at chasing down the FedEx driver at 5:00 pm. So next year, we will enter this task with the advantage of knowing what to expect and will be able to prepare ourselves for what's to come.

As for this edition, we are proud of it and hope you enjoy it too. Many thanks to all of our committed staff members...Anne Sutton, Renee Young, Meg Wolff, Suzy Spressert, Ann Harriott Fisher, Catherine O'Dell, Elizabeth Dew, Bryan Mayerhoffer, Laura Barron, Amy Cragin, Jay Shultz and Chris Martin. Thanks also to Brian Krehmeyer, Wes Hart, Gina Carlotti, Kristin Elifson and Meredith Thompson for helping us out with last minute details. And a special thanks to Carolyn Henderson, our Walsworth Representative, who always remained cheerful and positive, even up into the late days of summer

Kerry Albright
